two-and-a-half-story wood frame structure of asymmetrical dimensions of the original plan were about 60 feet by 40 feet. The porch and solarium were later additions except for a convex porch on the second story. The second-story deck on the porch has been enclosed. The solarium is located on the roof.

alist who made a fortune in the mines of Tombstone and Con- r for many years was F.M. Murphy who is best remembered for rritory's railroad system. In 1895 Gage built himself a man-
