**National Register of Historic Places
Registration Form**

485

This form is for use in nominating or requesting determinations for individual properties and historic districts. See instructions in *How to Complete the National Register of Historic Places Registration Form* (National Register Bulletin 38) for more information. Mark "X" in the appropriate box or by entering the information requested. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

historic name East Indian Creek Bridge

other names/site number _____

2. Location

street & number 260th Street over East Indian Creek not for publication

city or town 4.5 miles southeast of Nevada vicinity

state Iowa code IA county Story code 169 zip code 50201

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act, as amended, I hereby certify that this nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property meets does not meet the National Register criteria. I recommend that this property be considered significant nationally statewide locally. (See continuation sheet for additional comments.)

Patricia Christy DSHPD 4-7-98
Signature of certifying official/Title Date

STATE HISTORICAL SOCIETY OF IOWA
State or Federal agency and bureau

In my opinion, the property meets does not meet the National Register criteria. (See continuation sheet for additional comments.)

Signature of certifying official/Title Date

State or Federal agency and bureau

4. National Park Service Certification

I hereby certify that the property is:

- entered in the National Register
 - See continuation sheet
- determined eligible for the National Register
 - See continuation sheet
- determined not eligible for the National Register
- removed from the National Register
- other, (explain):

Edson H. Beall 5-15-98

5. Classification

Ownership of Property

(Check as many boxes as apply)

- private
- public-local
- public-State
- public-Federal

Category of Property

(Check only one box)

- building(s)
- district
- site
- structure
- object

Number of Resources within Property

(Do not include previously listed resources in the count)

Contributing	Noncontributing	
0	0	buildings
0	0	sites
1	0	structures
0	0	objects
1	0	Total

Name of related multiple property listing

(Enter "N/A" if property is not part of a multiple property listing)

Highway Bridges of Iowa

Number of contributing resources previously listed in the National Register

0

6. Function or Use

Historic Functions

(Enter categories from instructions)

TRANSPORTATION/road-related

foundation Concrete

walls

roof

other Concrete

Narrative Description

(Describe the historic and current condition of the property on one or more continuation sheets)

Located 4.5 miles southeast of Nevada, the East Indian Creek Bridge spans East Indian Creek in a rural Story County setting that has changed little since the structure's period of significance. A description of the structure follows:

span number: 1 construction date: 1912
 span length: 75.0' construction cost: \$4462.00
 total length: 78.0' current condition: good
 roadway wdt.: 15.5' alterations: none

superstructure: concrete Luten arch
 substructure: concrete abutments and wingwalls
 floor/decking: earth fill over concrete
 other features: solid concrete guardrails with incised rectangular panels

Other than maintenance-related repairs, the bridge remains essentially unaltered as it continues to carry vehicular traffic. The East Indian Creek Bridge today retains a high degree of integrity of location, design, setting, materials, workmanship, feeling and association.

8. Statement of Significance

Applicable National Register Criteria

(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
B Property is associated with the lives of persons significant in our past.
C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
D Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations

(Mark "x" in all the boxes that apply)

Property is:

- A owned by a religious institution or used for religious purposes.
B removed from its original location.
C a birthplace or grave.
D a cemetery.
E a reconstructed building, object, or structure.
F a commemorative property.
G less than 50 years of age or achieved significance within the past 50 years.

Narrative Statement of Significance

(Explain the significance of the property on continuation sheets.)

Areas of Significance

(Enter categories from instructions)

ENGINEERING

Period of Significance

1912

(The period of significance is derived from the original construction date.)

Significant Dates

1912 (construction date)

Significant Person

(Complete if Criterion B is marked above)

N/A

Cultural Affiliation

N/A

Architect/Builder

designer:

N.M. Stark and Company, Des Moines IA

fabricator:

none

builder:

N.M. Stark and Company, Des Moines IA

9. Major Bibliographical References

Bibliography

(Cite the books, articles, and other sources used in preparing this form on one or more continuation sheets.)

Previous documentation on file (NPS):

- preliminary determination of individual listing (36 CFR 67) has been requested
previously listed in the National Register
previously determined eligible by the National Register
designated a National Historic Landmark
recorded by Historic American Buildings Survey
recorded by Historic American Engineering Record

Primary location of additional data:

- State Historic Preservation Office

name of repository:

10. Geographical DataAcreage of Property less than one acre**UTM References**

(Place additional UTM references on a continuation sheet)

1 15 467940 4646880
zone easting northing2 _____
zone easting northing**Verbal Boundary Description**

(Describe the boundaries of the property)

The nominated property is a rectangular-shaped parcel measuring 18 feet by 78 feet, which is centered on the UTM point(s) listed above. Included within this rectangular parcel are the bridge's superstructure, substructure, approach spans and floor system.

Boundary Justification

(Explain why the boundaries were selected)

The nominated structure includes the bridge's superstructure, substructure, floor system, any approach spans and the property on which they rest. These boundaries encompass, but do not exceed, all of the property that has been historically associated with the bridge.

Continuation Sheet**

Section Number 8 Page 1 East Indian Creek Bridge Story County; Iowa

N.M. Stark of Des Moines began building bridges for Story County in 1902 and soon became the county's only bridge builder. This trend lasted until the state legislature passed the Brockway Act 1913 prohibiting annual bridge contracts and codifying bidding procedure. The law effectively ended Stark's monopoly on bridge construction in the county; after 1913 he did not build a single bridge. But in the 1910s he was responsible for several small- and medium-scale concrete arches, built using the patented configuration of Indianapolis engineer Daniel Luten. Stark's arches ranged in span length from 20 feet to 75 feet, and all featured the distinctive elliptical profile of Luten's design and the concrete parapets with incised rectangular panels that had become a Stark trademark.

Located southeast of Nevada in Nevada Township, the East Indian Creek Bridge was one of the arches built by Stark during this period. It was constructed for a cost of \$4462.00, as part of a multiple-bridge contract awarded to Stark in May 1912. With a span length of 75 feet, the Indian Creek Bridge was the longest concrete arch built by Stark in the county, excluding the Squaw Creek Bridge (since destroyed by floods) he erected in Ames in 1908. It is thus technologically significant as a long-span example of a patented structural type, constructed by the state's most prolific concrete bridge builder before the standardization of bridge design in Iowa.
