A major Indian war, the only one to be fought in California, took place in these rugged lava flows. In 1872, after several years of disputes with settlers, "Captain Jack" and his band of Modoc Indians took refuge in the lava beds immediately south of the lake. On January 17, 1873, the United States Army made a two-front attack on Captain Jack's Stronghold. The eastern force consisted of two troops of cavalry and 20 Indian scouts under the command of Capt. Reuben F. Bernard, 1st Cavalry. On January 16. this eastern force marched from Land's Ranch westward 16 miles toward the Stronghold. It passed Hospital Rock and, through error, approached the Stronghold more closely than Bernard had intended. The Modocs opened fire on the troops and Bernard ordered a one-half mile withdrawal to Hospital Rock. Here the troops camped for the night and on the morning of the 17th again marched for the Stronghold, two miles to the west. The attack was a failure. Joined by a portion of the western attack force, Bernard withdrew his men by way of Hospital Rock back to Land's Ranch. The enlarged force stopped briefly at Hospital Rock to rest and eat on its retreat. and she provide the second

In the following weeks, the army units moved ever closer to the Stronghold in preparation for another attack. On April 6, an enlarged (5 companies) force under Maj. Edwin C. Mason, 21st Infantry, camped at Hospital Rock. On April 11 the Modocs attacked the Peace Commission, and also attacked and killed 1st Lt. William L. Sherwood of the Hospital Rock camp. Sherwood and a fellow officer had walked a half mile beyond the fortifications westward to meet with Modocs carrying a truce flag. The soldiers on guard in the rock fortifications could observe the unexpected attack.

On April 12, the Modocs fired on Mason's pickets west of Hospital Rock, forcing some of them to withdraw. Then, during the night of April 14-15, Mason advanced his command from Hospital Rock for the second attack on the Stronghold -- an attack which resulted in the Army's occupying the position two days later.

The camp at Hospital Rock was broken up soon after the capture of the Stronghold. Its important role as the base of operations for the eastern force during the attacks on the Modocs came to an end, although the war would drag on for another six weeks.
