STATEMENT OF SIGNIFICANCE

Completed in 1853, the central portion of Rountree Hall housed the Platteville Academy and was a replacement for an original building which had become inadequate to the needs of the Academy's student body. The Platteville Academy was founded in 1839 by the Literary Association of Grant County, a lead-mining region of southwestern Wisconsin. It is one of the earliest of Wisconsin's educational institutions and in 1866 became the first Wisconsin state normal school. John H. Rountree, after whom the building is named, was the Literary Association's first president and later became treasurer of the first Board of Regents of the University of Wisconsin. Rountree Hall was planned by a New York architect named Gardinet. Its plans and specifications are still in existence and have been used in constructing subsequent additions and alterations. The history of the Platteville Academy contains one of the first examples of the protection of civil rights in education in Wisconsin. An early principal of the Academy, J. C. Pickard, successfully defended the admission of a girl of mixed Negro and white parentage against the school's trustees by threatening to resign if she was not admitted. In 1866 the title to Rountree Hall passed into the hands of the State of Wisconsin, and on October 9 of that year the first Wisconsin State Normal School opened its doors in Rountree Hall. A new building for the normal school was opened to the south of Rountree Hall in 1867-8, and in 1873 an addition was built which joined the two buildings together. In 1881 a west wing was added and in 1891 a north wing completed the structure standing today. In 1907 the State Normal School was moved to another location and Rountree Hall became the home of the State Mining Trade School. This, in turn, became the Wisconsin Institute of Technology in 1939. In 1959, the Normal School and the Institute of Technology merged to become Wisconsin State College and Institute of Technology. And finally in 1971 this institution became the University of Wisconsin - Platteville.
