LOUIS YANKE SALOON (200 Madison Street)
Intensive Survey Form - Continuation Sheet (1)

ARCHITECTURAL STATEMENT:

Description: The Yanke Saloon is a two story, free standing building. The building is veneered with limestone, and on the west face, by colorful blocks of granite with limestone accents. This polychromatic treatment and the oriel windows contribute to the Queen Anne character of the design. The oriel windows and a corner bartizan are frame units, delicately detailed with classical motifs. The Yanke building continues to function as a restaurant/bar, however, the first story windows have been closed. The iron lintels remain visible.

Significance: The Yanke Saloon is a fine Queen Anne commercial building, architecturally significant as an example of a period of construction. The polychromatic surface is noteworthy, as is the classically inspired detailing of bartizan and oriels. The Yanke Saloon is the only building in Waukesha to employ colorful granite as a primary surfacing material. Other comparable Queen Anne commercial buildings are located in the Downtown Historic District. As in the Yanke building, these structures are sited on corner lots, and include the bartizan elements at the corner. The New Putney Block (802 Wisconsin Avenue WK 77/9) was constructed one year prior to the Yanke Saloon, and is very similar stylistically. The Mickell building (338-340 W. Main Street WK 77/22) dates from 1901, appears more massive, with larger detailing employed. The Yanke building is distinguished by the polychromatic surface and more delicate ornament.
