Wing D, the Fifth Avenue facade of  
The Metropolitan Museum of Art, built  
in 1902 and designed by William Morris  
Hunt. Hunt's design proved somewhat  
too grand, at least in its sculptural  
ornament, and when it was built the  
groups intended to surmount its main  
pillars, were left rough blocks.

The foreground showing the old Park Entrance of the Metropolitan Museum of Art, is Wing B, designed by Theodore Weston and constructed in 1888. Behind it, to the right, can be seen Wing A (central core, designed by Calvert Vaux, completed 1880) and behind it, can lastly be seen, in the rear, Wing C - designed by Arthur Tuckerman and built in 1894.
