NATIONAL REGISTER OF HISTORIC PLACES
REGISTRATION FORM

This form is for use in nominating or requesting determinations of eligibility for individual properties or districts. See instructions in Guidelines for Completing National Register Forms (National Register Bulletin 16). Complete each item by marking "x" in the appropriate box or by entering the requested information. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, styles, materials, and areas of significance, enter only the categories and subcategories listed in the instructions. For additional space use continuation sheets (Form 10-900a). Type all entries. Use letter quality printers in 12 pitch. Use only 25% or greater cotton content bond paper.

Other/U.S. Forest Service Standard

foundations concrete

walls balloon frame, novelty log siding

roof cedar shingles

other N/A

Describe present and historic physical appearance.

The Jackson Lake Ranger Station is a house used as a residence and office with three associated outbuildings; a barn, a garage, and an outhouse. All the structures are based on standard plans with novelty log siding painted brown predominating. The outhouse is board and batten, but also stained or painted brown. The house and garage are one and one-half story buildings, while the barn is two and one-half and the outhouse is only one story. All have gabled roofs. The ranger station is set off the main park road overlooking Willow Flats and the Jackson Lake Dam. It is set on the edge of a forest and separated from its surroundings in that it is a group of man-made features in a natural area. The buildings appear to be built from standard U.S. Forest Service plans and have no particular architectural style other than 1930s Forest Service. The buildings remain in their original location.

8. Statement of Significance

Certifying official has considered the significance of this property in relation to other properties: ___ nationally ___ statewide X locally

Applicable National Register Criteria X A ___ B ___ C ___ D
Criteria Considerations (Exceptions) ___ A ___ B ___ C ___ D ___ E ___ F ___ G

Areas of Significance
(enter categories from instructions) Period of Significance Significant Dates
conservation 1933-1938 _____

Cultural Affiliation
N/A

Significant Person Architect/Builder
N/A USFS

State significance of property, and justify criteria, criteria considerations, and areas and periods of significance noted above.

This ranger station represents the last in situ U.S. Forest Service ranger station in Grand Teton National Park that dates to the Great Depression and the redevelopment of facilities by the Forest Service after establishment of Grand Teton National Park. During the 1930s, as stated in the Conservation Context, efforts to enlarge the Park under the leadership of John D. Rockefeller, Jr., led to the Forest Service resisting the efforts to take land from Teton National Forest for those expansions. As a symbol of that defiance, the Forest Service constructed the Jackson Lake Ranger Station to make their presence felt as close to the Park boundaries as politically feasible in 1933. The Jackson Lake Ranger Station was one of five ranger outposts in the area manned by the Forest Service in the 1930s and is the only one not to have been heavily rebuilt and/or moved by the National Park Service after they took over the lands in 1943 as part of Jackson Hole National Monument and later an enlarged Grand Teton National Park. As such it represents an interim phase in the local development of conservation in Jackson Hole and the Forest Service presence and involvement in that process.

Verbal Boundary Description

The Jackson Lake Ranger Station is bounded by a circle 100 yards in radius centered on UTM point 12 534500 4857480.
The Ranger Station is on the Moran, Wyoming, 7.5° U.S.G.S. quadrangle.

See continuation sheet

Boundary Justification

The boundary as described includes the buildings of the Ranger Station and a portion of the driveway and spaces around it to include the historic setting of the station and its feeling.

See continuation sheet
