June D. Drake photo, c. 1928, prior to
State Park development. Looking
southeasterly at South Falls. Note

pathway on ledge behind Falls, a sheer
drop of 177 feet. On the shelf above
the canyon figures are seen in a
clearing which is the nucleus of the
9.63-acre nominated area.

South Falls also was the focal point
of the initial park land acquisition
in 1931.
