The property is a rectangular parcel measuring 30' x 70', whose northeast corner is 5 feet directly northeast of the northeast corner of the bank's foundation and whose southeast corner is 5 feet directly southeast of the southeast corner of the bank's foundation. The boundary includes the building and the entire parcel that has historically been associated with the property. Line D-A is on the south side of First Street.

45. Description and House Plan:

The boomtown facade against the street marks the commercial use of this diminutive, one-story gable-front building. The upper portion of the facade, above the line of the eaves, including the sign, the corbelling, and the "pediment," rests on a stone string-course. All lintels and sills are also of stone, cut smooth; the lintel over the front door remains in place, although the space between the recent door and the lintel has been filled-in with brickwork, painted, as is all the brickwork. The parapet of the facade is capped with tin. There are two windows on the north side and one on the south; the rear wall is obscured by a mid-twentieth century one-room addition, which does not cause a loss of integrity.
