Here is a 34 passenger Lawson Airline built in 1920, Alfred W. Lawson, the inventor and builder, is standing at extreme left in aviator's clothing.

This photograph shows a front view of the 34 passenger carrying Lawson Airline, powered by three 400 H. P. motors. It is the invention of Alfred W. Lawson and was designed and built under his direction. These great airplanes were first made in America and afterwards in Europe, where they were put into service on many European airlines.
