Item number 1,2,4,7,8,10 Page 53

1. Name: San Juan Teacherage, survey number 3
2. Location: approximately 50' west of Highway 61 and 1.7 miles north of the Mimbres Hot Springs Canyon Road
4. Owner: Charles Disert, Route 15, Box 800, San Lorenzo, N.M. 88057
7. Description: Photo 57; single file plan; foundation unknown, likely concrete; stuccoed walls; corrugated metal hipped roof; 4/4 double hung windows; 1 single door, two concrete stoops suggest second door removed.
8. Significance: Homesteader John Entzminger constructed this building in 1923 for schoolteachers at the San Juan school. The state funded the project and Alfred Perrault, son of leading settler George Perrault, donated the land upon which it is built. Alfred was continuing a family tradition of supporting local education (see George Perrault House, # 3, discussion) and this explains the location of the teachers' residence here away from the school in San Juan. The building meets Criterion C as a good, unmodified example of the New Mexico Vernacular type in the early twentieth century. The stuccoed walls of the building, its single file plan and corrugated metal hipped roof, are similar to most New Mexico Vernacular residences in the valley, although the raised foundation is an Anglo-American element.
10. Geographical Data: Approximate Acreage: less than one. Quadrangle Name: Dwyer, N.M. Scale: 1: 62,500 UTM References: 13 229350 3626650 Verbal boundary: A rectangle, roughly 40' by 35', formed by lines parallel to and ten feet from the exterior walls of the building. Since this is an unplatted area, this boundary has been created to include only the building.
