		C. York and Gracie Williams were married by Governor A. H.
	A.	Roberts of Tennessee. It was shortly after his return from

	1597700000 aug	2,000 people attended the services, bringing food of all types

7. DESCRIPTION (cont.) p.3.

(11) York Bible School. A large, T-shaped building constructed of native stone, this building was erected in 1941-43 by York from some of the proceeds of the movie based on his life. It was his plan to establish a graded Bible school with regular sessions where children of all ages could be taught the Bible. This plan never materialized. Until about 1960, summer sessions were conduced by itinerant ministers. Approximately 100 people of all ages attended the sessions. The building is now vacant.

(12) York Grist Mill. Driven by water from the Wolf River, this mill was built by James Conley and William Rankin in 1880 and operated by them until 1890. At that time it was bought by Steve Pile and operated by him and his son until 1943, when it was purchased by Sgt. York, who operated it until his health failed in the 1960's. Both flour and corn meal were ground at the mill. In 1968, the State of Tennessee purchased the mill. It is now open as a museum and will be developed as a part of the Pickett State Park.

(13) Sgt. York Home. A large, two-story frame house of the Tennessee a vernacular style, this house was built in 1922. Funds were raised by public subscription under the leadership of the Nashville Rotary Club and the Nashville <u>Banner</u>. Donations from grateful citizens across Tennessee, as well as many from other states, were collected. York lived here until his death in 1964, and Mrs. York still resides here.

(14) <u>Sgt. York Grave</u>. York still resides here. River Methodist Church, where his ancestors and many of the other early settlers of the valley are buried.

#### 8. SIGNIFICANCE (cont.)

Money came to York in 1941 from a contract for the motion picture rights to the story of his life, a picture that brought Gary Cooper his first Academy Award for his portrayal of York. Continuing in his determination to better the educational facilities for the children of the area, York spent much of his money from the movie to building a Bible school where he hoped that children of all ages could be taught the Bible.

Using his influence, York worked to better the living conditions of those in his valley. Among the improvements he helped to bring about was a new highway to replace the mountain trail through Pall Mall, and a new post office. For the remainder of his life, York was the central figure in his community, the person to whom the citizens turned for help for all kinds of problems in their lives.

York thus was not only a war hero, but a humanitarian who sought to improve the living conditions of those around him. The area in which he lived and worked is, therefore, a significant area.
