15. Original Use Dwelling		Direction	
16. Present use "		34. Prepared by: Wm. Gus Johnson Senior Historian	
17. Condition Excellent		35. Organization Kentucky Heritage Council	
18. Description Situated on a slight rise overlooking the Little Kentucky River, the Logan house is a two-story, three bay, center passage frame structure. A one-story porch with dentilled cornice and supported by nine Ionic Order columns covers two facade bays and extends around the north side of the dwelling. All bays have architrave trim. (Continue on Back) (over)		36. Date August 1982	
		37. Revision Dates	
		38. Staff Review	
19. History The house was constructed by a Mr. Ford, a contractor from Louisville, who also built similar style houses in the Crescent Hills area of Louisville.			
20. Significance Architecture: The Logan House is a significant example of early twentieth century architecture in Trimble County. It is one of the two best representations			
21. Source of Information James H. Logan - son of W. W. Logan, who built the house.			

18. The second floor facade is enhanced by a bay window placement. One-pane sidelights compliment the main entrance. The hip roof is pierced by a four window dormer on the facade as well as a four window dormer on the north side. A two-story porch is on the south side of the dwelling. The house rests on a limestone foundation, and has interior chimneys. The interior features architrave trim for the front rooms, while the woodwork of the rear rooms consist of fluted trim with bull's eye corner blocks. An open two-run stairway with turned balusters and light sawn brackets leads to the upper level. The house was constructed of oak lumber at a cost of less than \$5,000.

20. of the American Foursquare design in the county. In addition, it is also a well designed and well-preserved example of this style and exhibits excellent workmanship in both exterior and interior features.
