1.	County Grand Forks, North Dakota 2. Site Number CK14
3.	Site Name (s) Dakota Block Downston & Sand A
4.	Type of Resource: A. Archaeological Historical Architecturalx Paleontological
	B. District Site Buildingx Structure Object
5.	Map Reference: USGS Quad. Grand Forks, N. Dak-Minn, 7.5' 1963 (photorevs'd 1979)
6.	Location: 21 South Fourth Street Sec. 3 T 151 N / R 50 W.
	Plat: Original Townsite Block 26 Lot S½ Lot 12
	UTMG: A. <u>14.647180.5309510.</u> 8.
	C
7.	Access: visible
	Location: east side of South Fourth Street
	Acreage: less than one acre
	Verbal boundary: above city lot roughly 25 X 140 feet
O	A Copperation of citation and a three story
8.	A. General description of site: the Dakota Block is a three-story, flat-roofed, brick commercial structure. Its south wall abuts the north wall of the original Odd Fellows Block. Its north wall abuts a two-story business building. Its west and east elevations are entirely visible. Set back the width of the sidewalk, the building covers its entire lot. It is of rectangular plan, with the longitudinal axis much greater than the lateral axis. (Cont.)

NORTH DAKOTA CULTURAL RESOURCES SURVEY

Continuation form

Site Number CK14

Item No.

8.A. The west (principal) facade of this commercial vernacular building is composed of one recessed bay. The brickwork is a running bond of hard pressed red Hebron brick with butter jointing.

The first floor has rusticated corner piers springing from granite base blocks and supporting base blocks for corner pilaster strips running to the top of the building. The first floor storefront has been altered with plate glass windows and a yellow, fiberglass awning. The tall storefront windows have been lowered and infilled to accommodate a new suspended ceiling. Corbelled brick and a stone cornice delineate the recessed bay above the first and below the third stories.

The second and third story fenestration is unified by slightly raised, continuous stone sill courses running the entire width of the recessed bay below the second and third story windows. A continuous lintel course of brick laid with vertical stretchers runs the entire width of the recessed bay above the second and third story windows. The front wall is capped with a stone coping with a raised central parapet to hold a name block inscribed "DAKOTA BLOCK."

The rear of the building is common Grand Forks brick. It has a cast iron fire escape.
