4. IDENTIFICATION

DESCRIBE VIEW, DIRECTION, ETC.
Staircase to second floor. The three lowest steps had been destroyed but are now replaced. The final riser nearest the landing on the left is approximately one and one-half inches higher than it's opposite end. Workmen attest the construction as that of a porch at some early date. On the outside of the present upper porch one can note early enclosure.

4. IDENTIFICATION

DESCRIBE VIEW, DIRECTION, ETC.

A portion of the Southern side of the outside wall of Propinquity now forming a wall for the kitchen which is the lower floor of the ell butting the house. This, as are all the outside walls, is four brick thick. No attempt has been made to change the old house except to repair and to strengthen it for future generations.

4. IDENTIFICATION

DESCRIBE VIEW, DIRECTION, ETC. A view of the fireplace and mantel in the upstairs being used as a den. The fireplace is unique since it is built unsupported from below. Hand wrought arms extend from within the outside walls of the house, but are not visible from outside. Over them are laid cypress boards then sand. It has been restored, including dampers, can be used. even original sand returned.
