Photograph #1 ² JUL 31 1978

Orange County, California

The photograph captures a grand, three-story brick building, likely a commercial or institutional structure, situated at a street corner. The building's architecture is characterized by its ornate facade, featuring a prominent cornice with decorative brackets and a series of arched windows on the second floor. The ground floor is dominated by a large storefront with expansive display windows, suggesting a retail or service-oriented business. A utility pole stands prominently in the foreground, and a lone figure is visible near the entrance, providing a sense of scale to the massive structure. The street in front of the building is unpaved, and the overall scene conveys a sense of early 20th-century urban development.
