The Fredericks House is a one-and-a-half story wood frame structure set deep. The plan is roughly rectangular but has several niches shapes are primarily gabled; ridges do not intersect. Shingles shingles; cut stone is used as the foundation and in the porch; other s appear to be stuccoes. Decorative mullions occur in the second sionally in windows on the first floor. Gable beams are decorated.

CE R.N. Fredericks was a banker and capitalist. He is primarily as president of the Prescott National Bank, although his personal
