9. Historical significance (include explanation of themes checked above)

Built as a mirror image of its neighbor, Forest Hill Cottage (Form 90-G-8), Soho Cottage is Worcester's best example of Carpenter Gothic architecture. With the exception of modern front doors and the replacement of some sash (ca.1900), Soho Cottage is in original condition, retaining many excellent details. The house is asymmetrical in plan and massing, rising one and one half stories from a brick foundation to steeply pitched roofs. Portions of the building contain an attic above the upper storey. Major features of the house are its deep eaves, bargeboards with pendants, entry porch (with open supports, brackets and pendants), board and batten siding, facade gable with ogee-arch window and a rectangular-plan bay window (east). In addition to its fine design, Soho Cottage occupies a partly wooded, hillside site and preserves a strong sense of the surrounding area's strong appeal to the Romantic sensibilities of the early nineteenth century.

Soho Cottage was purchased by William Allen in September of 1860 from real estate developer Samuel Davis for \$1,250. Allen was listed in local directories as living on Forest Avenue in 1861 and in 1862 as living in "Soho Cottage" on Forest Avenue (now Forestdale Road which intersects Windsor Street). William Allen (born 1825) was a native of Soho, England who came to Worcester in 1849. During the 1860s Allen was a machinist and foreman at the Court Mills for Nourse, Mason & Co., later Ames Flow Company. In 1872 Allen became a partner in the firm of Stewart & Allen Boiler Works which dissolved in 1875, the year in which Allen purchased the Worcester Boiler Works. By 1898 the Worcester Boiler Works, renamed William Allen & Sons, had grown to become one of

the largest boiler manufacturers in New England.
 Allen continued to live in Soho Cottage until his death in 1906.

Excellent multiple resource nomination for the entire city of Worcester. Both the general description & statement of significance & the individual inventory sheets are well done. Each type of property included is well justified & reasons are listed for not including others at this time (e.g. 3-deckers). Historian

Concern with Bruce's comments on 102-L-3, 116-CBD-11, 117-E, and 130-CBD-50 and 44. Integrity and/or boundaries need to be addressed specifically on individual forms. Architectural Historian

ARCHEOLOGIST

116-CBD-11 - Destroyed, cannot be listed.
130-CBD-44 - I am not convinced this has lost integrity. See attached.
102-L-3 - Period of significance and categorization of 1 bps need to be discussed with State.

With 3 exceptions all properties appear to me to meet the criteria and the forms are adequate. ~~Both~~ both technically and to determine significance. Although some of the forms did not contain strong statements of significance the resource categories were thoroughly discussed in the body of the nomination; therefore significance was established. VBDs were not necessary because

of the scale mapping clearly delineated boundaries. Please was missing on some properties but is now included after the 2/11/corrections.

Review _____

✓ 116-CBD-13 - DESTROYED BY FIRE MD - 116 CBD-11
130-CBD-44 - DOES NOT RETAIN INTEGRITY FOR INDIVIDUAL ELIGIBILITY

✓ 102-L-3 I ~~am not~~ am not convinced about boundaries BUT BELIEVE THEY COULD BE OK. ~~BASED~~
ON ADDITIONAL DOCUMENTATION SUBMITTED - I DEFER JUDGEMENT.
