

NORTH IDAHO 1910 FIRE SITES THEMATIC GROUP

✓ Name: Halm Creek, Bean Creek Fire, ~~site number 3~~ 3

Location: Section 5, T43N, R9E, vicinity of Red Ives, Idaho, Shoshone County

Owner: United States Forest Service

S of Red Ives

Map: USGS Simmons Peak 62500

Acreage: 2 1/2

Boundaries: NE $\frac{1}{4}$  SE $\frac{1}{4}$  SE $\frac{1}{4}$  SW $\frac{1}{4}$  Section 5, T43N, R9E

Coordinates: 11/625 150/5207 100

Date: 1910

Significance: Conservation  
State

Description: This site is a timber and brush-covered location that has changed only by natural growth since 1910. Halm Creek, an ephemeral stream on a steep slope, runs into Saint Joe River just downstream from this site in a large flat. Occasional 1910 fire snags survive there, but that area is mostly revegetated.
