Attached to the basement level of the south elevation is a single story brick, common bond structure built as a tavern in the 1880s.

19. census as a shoemaker by trade. Sometime between 1844 and 1846 Kremer moved to Kentucky. This can be drawn from the fact that his son was born in Germany in 1842, a daughter in Louisiana in 1844, and another son in Kentucky in 1846. By 1870 Kremer's property was valued at a high figure of \$3,500. It would appear that Matthais Kremer was closely related to Nicholas Kremer (CP-55).

20. vernacular buildings in the area.
