THIS OLD ROOT CELLAR, BUILT BY SLAVES IN THE EARLY 1800'S WAS THE PIONEER SUBSTITUTION FOR REFRIGERATION. IT HAS A CONSTANT TEMPERATURE OF 55 YEAR ROUND. THE CELLAR STORED THE SPOILAGE OF WHEAT IN THE SUMMER AND PRESERVED EGGS AND VEGETABLES FROM FREEZING IN WINTER. IT WAS BUILT ENTIRELY OF STONE WITH NO MORTAR. THE ROUND CELLAR, WITH ITS GLOBE SHAPED ROOF AND BENT FLOOR, APPEARS TODAY MUCH AS IT DID 100 YEARS AGO.
