9. Historical significance (include explanation of themes checked above)

This is the most highly detailed of Taunton's 18th century gable roof cottages built during the period of agricultural settlement of Taunton's central, Dean Street and Summer Street corridor. The house is exceptional architecturally for its fluted pilaster-trimmed door, frieze enriched with a continuous festoon motif, and for its excellent state of preservation.

The structure was built for Jonathan Dean in c. 1766, one of the many members of the founding Dean Family, who established early farms in the area.

Description: The 1½-story cottage features wood frame construction, and is marked by a large central chimney and close-cropped eaves.

The Jonathan Dean House possesses integrity of location, design setting, materials and workmanship. It meets criterion C of the National Register of Historic Places as an early well preserved Federal period cottage of outstanding architectural details.

Boundaries conform to current lot lines.
