Architectural Description and Significance: This 1½ story Flagg System house has dimensions of 40 x 47 feet. The house faces south and has an asymmetrical window and door openings. The entrance is in a one story octagonal tower at the SE corner of the main section of the house. The tower links the main section with a one story ell containing the living room. The original garage is attached opposite the ell but a one foot stucco extension was added to the garage. There are limestone walls and a green slate roof replacing the original asphalt roof. There are two pairs of ridge dormers, four gable dormers, and three chimneys Interior visited? <input checked="" type="radio"/> Yes <input type="radio"/> No (over)			Historical Background and Significance:			Map Name Milwaukee Quadrangle

which have distinctive round openings. There is a stone fireplace in the living room and a beamed ceiling. Casement windows open inward over tile sills and there is a tile floor in the vestibule. There is a partial basement and originally a laundry room on the first floor, but this was converted to a bedroom. Upstairs there is storage space under the roof. The bathroom is one step up from the level of the hallway. The casement windows have Flagg type of hinges and the upstairs partitions are 1 3/4".

This house is architecturally significant because it is one of a group of stone masonry houses built by Arnold F. Meyer & Company, Inc. using Ernest Flagg's methods of construction. It is also significant because it is one of a row of three Flagg System houses which have been designated as Milwaukee County Landmarks. There are five Flagg System houses in this neighborhood.
