3. The photo is taken from the southeast, showing the deterioration of the foundation of the wash house. As can be seen, the base of the foundation is eroding away and this represents the greatest structural problem for Buildings 1 & 2.

that is in the CO's Quarters.

It was shipped to Fort Shaw via  
Fort Benton from St. Louis, in  
1867. Original hardwood floor  
is under the rug and in good  
condition
