NATIONAL REGISTER OF HISTORIC PLACES REGISTRATION FORM

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in How to Complete the National Register of Historic Places Registration Form (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

historic name N/A

other names/site number South Dakota Dept. of Trans. Br. No. 07-009-060

2. Location

street & number Local road over Elm Dam spillway not for publication
city or town Frederick vicinity
state South Dakota code SD county Brown code 013 zip code 57441

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act of 1986, as amended, I hereby certify that this nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property meets does not meet the National Register Criteria. I recommend that this property be considered significant nationally statewide locally. (See continuation sheet for additional comments.)

Narrative Description (Describe the historic and current condition of the property on one or more continuation sheets.)

8. Statement of Significance

Applicable National Register Criteria (Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield information important in prehistory or history.

Criteria Considerations (Mark "X" in all the boxes that apply.)

- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or a grave.
- D a cemetery.
- E a reconstructed building, object, or structure.
- F a commemorative property.
- G less than 50 years of age or achieved significance within the past 50 years.

Areas of Significance (Enter categories from instructions)

Engineering

Politics/Government

Period of Significance 1938-1942

NATIONAL REGISTER OF HISTORIC PLACES

CONTINUATION SHEET

Section 7, 8 Page 1

Description

Bridge no. 07-009-060 is located 9.5 miles west and 1 mile north of Frederick and carries a local road over the spillway for Elm Dam. This 174-foot reinforced concrete slab bridge has ten spans and rests on three-legged concrete piers and concrete abutments. There is a concrete balustrade railing along each side of the bridge.

This bridge retains excellent integrity.

Statement of Significance

Bridge no. 07-009-060 is being nominated to the National Register of Historic Places as part of the "Historic Bridges in South Dakota" Multiple Property Nomination. It is related to the historic context of "Historic Bridges in South Dakota, 1893-1942" and is classified with the associated property type for reinforced concrete highway bridges. This bridge is individually eligible for the National Register under Criterion A for its association with the Works Progress Administration, a New Deal program designed to provide work relief for the nation's unemployed during the Great Depression of the 1930s. It is also National Register eligible under Criterion C as the longest multiple span concrete bridge in South Dakota. The bridge retains excellent integrity.

President Roosevelt's New Deal programs of the 1930s, ushered in a new era of bridge construction in South Dakota. The primary intent of these programs was to provide federal assistance to put as many men to work as possible during a time of severe economic crisis, the Great Depression. For bridge projects, in general, federal agencies paid for labor, while the state or local highway departments paid for supervision, engineering, and materials. Most assistance for bridge construction in South Dakota was provided by the Works Progress Administration (WPA) which supervised the bulk of New Deal work-relief projects from 1935 to the onset of World War II in 1942.

The WPA sponsored the construction of Bridge no. 07-009-060 in 1938 with Frank Elliot serving as project foreman. The bridge was constructed as a concrete structure which, along with stone masonry bridges, were typically built at this time because they generated more labor-intensive projects than steel bridges. Today, this 174-foot bridge is the longest multiple span concrete bridge to survive in South Dakota.

Bibliography

Brown County "Brown County Bridges," n.d., Bridges no. 356, Highway Superintendent's Office, Brown County Courthouse, Aberdeen.

Verbal Boundary Description

The nominated property consists of a rectangle, 33 feet wide by 179 feet long, whose vertices coincide with the outside corners of the bridge abutments at each end of the bridge, and includes only the bridge superstructure and substructure.

Boundary Justification

Because the bridge is located on a public road, there are no legal boundary lines for the ends of the bridge. Therefore, these boundaries are drawn to encompass only the superstructure and substructure of the bridge itself.
