STATEMENT OF SIGNIFICANCE

In 1094 land was given to Azariah and Mary Grane, apparently as a weading gift, and soon the area became known as Cremetown.

Israel Crane, fifth generation to Azariah and Mary Crane, ouilt the house in 1796 in the contemporary Federal Style on an 86 acre plot. Only twenty-two then the house was erected, Israel Grane went on to become one of the most provident businessmen in the county. He built and owned a toll road to Newark in 1800. In 1812 he developed a useful source of power from the Passaic Falls and then established the nearby West Bloomfield Manufacturing Company. He also owned a large quarry in Newark and founded the Newark Banking and Insurance Company and the Bloomfield Academy.

By $1\delta 12$ the town was changed to Montclair, as it is now known, but the influence of the Grane family is still evident.

Architecturally the Grane House, although altered some.dat, represents fine example of Federal style architecture in the main structure with the alterations in a Greek Revival style.
