Elks Club 515 Juliana St. 92-18

Sited in the center of a block along a major thoroughfare, this is a 3 story Classical building roughly 3 bays square with a rear (NW) wing. It reads as a 2 story building with corner quoins, crowned by an added 3rd story. The flat roof is surrounded by a low brick parapet with a dentiled modillion cornice below. Each bay of the 3rd story, separated by symbolic medallions, contains a pair of 2/2 windows framed by engaged colonettes; in the side elevations they are not paired. Projecting out from the 3rd story is another low parapet and box cornice above the 2nd story. The 2 outer bays on the SE contain 2 rounded bays. The 1st and 2nd story windows are d/s (1/1), with Gibbs surrounds on the front (SE). The central SE bay contains a 3 window system with cornice and Gibbs surround on the 2nd story and a Classical doorway on the 1st, framed by engaged columns, a plain cornice, and extended voussoirs. The raised basement is banded below a stone water table. The rear section has an irregular fenestration system; many windows have been boarded up.

515 Juliane St. 92-18

Sited in the center of a block along a major thoroughtare, this is a istory Glassical building roughly 3 bays square with a rear (W) wing. It reads as a 2 story building with corner quoins, crowned by an added and story. The flat root is surrounded by a low brick parapet with a by symbolic medallion cornice below. Each bay of the 3rd story, separated colonettes; in the side clevations a pair of 2/2 windows frameb by engaged from the 3rd story is another low parapet and box cornice above the 2nd the story windows are diversions they are not paired. Projecting of the control by symbolic medalliona, contains a pair of 2/2 windows frameb by engaged from the 3rd story is another low parapet and box cornice above the 2nd the central SE bay contains a 3 window system with cornice and to in the story windows are diver (1/1), with Gibbs surrounded bays. The 1st and surround on the 2nd, story and a Clausical storway on the 1st, framed by surround on the 2nd, story and a Clausical storway on the 1st, framed by surround on the 2nd, story and a Clausical storway on the 1st, framed by engaged columns, a plain cornice, and extended youssoirs. The raised basement is banded below a stone water table. The tear section has an irrectal remestration system; many windows have been boarded up.
