A black and white photograph of a building facade. The central focus is a large, detailed sculpture of an eagle with its wings spread, perched on a decorative base. Above the eagle is a window with a grid pattern. A flagpole is positioned in front of the eagle. The building's surface is textured and shows signs of weathering. At the bottom of the image, the words "CITY HALL" are inscribed in large, bold, capital letters. The overall composition is a low-angle shot looking up at the building.
