VIEW TO WEST-SOUTHWEST

A black and white photograph of a long, narrow truss bridge. The bridge is constructed from a complex network of steel beams and cross-braces, forming a series of repeating truss structures. The deck is made of wooden planks. On the left side, a signpost holds a rectangular sign with the text "WEIGHT LIMIT 4 TONS". The bridge spans a valley, with trees and hills visible in the background. The lighting creates strong shadows on the bridge deck.
