Tarpon Springs, Pinellas Co., FL

These records show the growth of Tallahassee. When George Washington first made and published the map of Florida in 1763, Tallahassee was not on the map. It was not until 1824 that it was first mentioned in the records of the United States. The first settlement was made in 1824 and the city was named in honor of the building which has since been known as the State Capitol.

**TALLAHASSEE'S PEOPLE**  
(1824-1845)

These are pictures of the people who lived in Tallahassee during the period of the settlement. They are the first settlers and the first citizens. These pictures are not shown in the order of the settlement but are shown in the order of their arrival in Tallahassee.
