Biba SANTA CRUZ Bibal I

Governor Felipe Corch, R.I.P. ordered the construction of this difficult road in the years 1781 and 1785, planted the coconuts of the community and produced countless benefits for the island. Pray to God for his soul.

Governor Francisco Villalobos, the Commissioners Antonio Guerrero, Juan de Riera and Lucas de Castro and all the deputy commissioners of Agaña with the help of the inhabitants, succeeded in raising the first rice crops in this fertile valley in 1832 and 1834.

Thanks to the Virgin Mother of God and in honor of her Majesty the Queen, this swamp shall in the future be known as the "Swamp of the Immaculate Virgin".
