**NATIONAL REGISTER OF HISTORIC PLACES
REGISTRATION FORM**

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in How to Complete the National Register of Historic Places Registration Form (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

historic name Aggergaard Manor
other names/site number N/A

2. Location

street & number Thompson St. not for publication N/A
city or town Irene vicinity N/A
state South Dakota code SD county Yankton code 135 zip code 57037

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act of 1986, as amended, I hereby certify that this x nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property x meets does not meet the National Register Criteria. I recommend that this property be considered significant nationally statewide x locally. (See continuation sheet for additional comments.)

Jay D. Voigt 04-13-2001
Signature of certifying official Date

SD SHPO
State or Federal agency and bureau

In my opinion, the property meets does not meet the National Register criteria. (See continuation sheet for additional comments.)

Signature of commenting or other official Date

Aggergaard Manor
Name of Property

Yankton County, South Dakota
County and State

4. National Park Service Certification

- I hereby certify that the property is:
- entered in the National Register.
 See continuation sheet
 - determined eligible for the National Register.
 See continuation sheet
 - determined not eligible for the National Register
 - removed from the National Register.
 - other,
(explain:)

Signature of the Keeper: Erson H. Beall Date of Action: 8/6/09

5. Classification

Ownership of Property (Check as many boxes as apply)

- private
- public-local
- public-State
- public-Federal

Category of Property (Check only one box)

- building(s)
- district
- site
- structure
- object

Number of Resources within Property

Contributing	Noncontributing	
<u>2</u>	<u>1</u>	buildings
<u>0</u>	<u>0</u>	sites
<u>0</u>	<u>0</u>	structures
<u>0</u>	<u>0</u>	objects
<u>2</u>	<u>1</u>	Total

Number of contributing resources previously listed in the National Register N/A
Name of related multiple property listing (Enter "N/A" if property is not part of a multiple property listing.) N/A

6. Function or Use

Historic Functions (Enter categories from instructions)

Cat: Domestic Sub: Single Dwelling
Secondary Structure Garage

Current Functions (Enter categories from instructions)

Cat: Domestic Sub: Single Dwelling
Secondary Structure Garage

7. Description

Architectural Classification (Enter categories from instructions)

Late 19th and 20th Century Revival: Colonial
Revival

Materials (Enter categories from instructions)

foundation Stone
roof Asphalt
walls Clapboard
other _____

Narrative Description (Describe the historic and current condition of the property on one or more continuation sheets.)

See Continuation Sheets

8. Statement of Significance

Applicable National Register Criteria (Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A** Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B** Property is associated with the lives of persons significant in our past.
- C** Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D** Property has yielded, or is likely to yield information important in prehistory or history.

Criteria Considerations (Mark "X" in all the boxes that apply.)

- A** owned by a religious institution or used for religious purposes.
- B** removed from its original location.
- C** a birthplace or a grave.
- D** a cemetery.
- E** a reconstructed building, object, or structure.
- F** a commemorative property
- G** less than 50 years of age or achieved significance within the past 50 years.

Areas of Significance (Enter categories from instructions)

Architecture _____

Period of Significance

1904 _____

Aggergaard Manor
Name of Property

Yankton County, South Dakota
County and State

Significant Dates 1904

Significant Person (Complete if Criterion B is marked above)
N/A

Cultural Affiliation N/A

Architect/Builder N/A

Narrative Statement of Significance (Explain the significance of the property on one or more continuation sheets.)

See Continuation Sheets

9. Major Bibliographical References

(Cite the books, articles, and other sources used in preparing this form on one or more continuation sheets.)

Previous documentation on file (NPS)

- preliminary determination of individual listing (36 CFR 67) has been requested.
- previously listed in the National Register
- previously determined eligible by the National Register
- designated a National Historic Landmark
- recorded by Historic American Buildings Survey #
- recorded by Historic American Engineering Record #

Primary Location of Additional Data

- State Historic Preservation Office
- Other State agency
- Federal agency
- Local government
- University

Section number 7 Page 1

The Aggergaard Manor is located on Route 46, the main road through Irene, South Dakota. The house is located in a rural community, just blocks from the commercial core. A feed lot complex surrounds the house to the south. The house is an excellent example of the Colonial Revival style with influence from the Classical Revival style.

The façade (south elevation) of the Aggergaard Manor faces south towards the grain complex. The house features a projecting central bay, a cut stone foundation, dentil mouldings at the eaves and has window trim, gable end returns, many bulls eye windows and wood corner boards. The entire house has wood clapboard siding.

The façade has a two and one-half story projecting central bay. To the west of the projection is a pair of six-over-one double hung windows. Each of the rectangular windows on the entire house has a simple window hood with dentil mouldings. The west wall of the projecting bay has a six-over-one double hung window. The first floor of the projection has a three-sided bay window. Two of the sections have a nine-over-one window. The main portion of the bay has three nine-over-one double hung windows. To the east of the projection is an enclosed flat roof porch. The porch has a half-wall with wood clapboard siding. The windows on the porch have since been removed. Inside the porch are two four-over-one windows to the east of the entry door. To the west of the door is a small square fixed pane window. The second floor of the façade has one eight-over-one double hung window on either side of the projecting bay. Both the east and west walls of the projection have a bulls eye window with elaborate wood trim. The projection has a tri-partite window. The outside windows are nine-over-one double hung windows. The middle window is an eight-over-one double hung window. On either side of the tripartite window and between each window is an engaged Doric column. Located in the peak of the gable of the projecting bay is large round bulls eye window with elaborate wood trim. All the gable ends have heavy gable returns and an unornamented frieze, which is topped with dentil mouldings.

The east elevation has three fixed pane windows at the foundation level. The first and second floors each have three evenly spaced six-over-one double hung windows. Located in the gable peak is a tripartite window. The side windows are four-over-one double hung with the center window being a six-over-one double hung.

United States Department of the Interior
National Park Service

National Register of Historic Places Continuation Sheet

Section number 7 Page 2

The north elevation has an historic first floor shed roof addition at the northwest corner. Commencing at the northeast corner, the openings are as follows: a four light fixed pane window, a narrow eight light fixed pane window, a door, a narrow eight light fixed pane window, two six-over-one double hung windows. The second floor from the northeast corner, has the following openings: a six-over-one double hung window, a fixed four light window, three six-over-one double hung windows, a door and a six-over-one double hung window. Located in the center of the roof is a small dormer with a fixed six light window.

The west elevation has fixed windows at the foundation level. At the northwest corner, in the shed roof addition to the rear of the building, is an entryway with a gable roof. The first floor, next to the entryway, is a pair of six-over-one double hung windows. At the southwest corner of the first floor is an additional pair of six-over-one double hung windows. The second floor has a six-over-one double hung window, a pair of six-over-one double hung windows and a six-over-one double hung window. In the gable peak is a tripartite window. The side windows are four-over-one double hung with the center window being a six-over-one double hung.

Interior:

The interior has sixteen rooms with two complete bathrooms and a full basement. The first floor has the main entry into the sitting room, which has pocket doors into the parlor. The parlor has built in cupboards with leaded glass doors. Also in the parlor is a majestic fireplace for the time which it was built. It has a wood surround with an arched colonnade above the mantel. Each floor of the house has finished rooms: two in the basement, six on the first floor, five on the second floor which includes two servants rooms and three servants rooms on the third floor.

Garages:

There are two garages to the west of the Aggergaard Manor. The first is a non-contributing one-stall garage with a collapsing roof. The second is a one-stall garage with a car door on the south elevation. This is a gable asphalt roof structure covered with clapboard siding. Located above the car door is a small access door.

National Register of Historic Places Continuation Sheet

Section number 8 Page 3

The Aggegaard Manor is significant under Criterion C for the architectural style of Colonial Revival with the influence of the Classical Revival style. The Aggegaard Manor, constructed in 1904 is a well-preserved example of the way homeowners mixed styles for the design of their homes. The ornate home continues to provide a sense of architectural appeal that made it worthy of notice in 1904.

Danish immigration to the United States is a part of the great North-European migration of the nineteenth century which reached its highest peaks in the 1880's and early 1890's. It was during this time that the immigration to South Dakota was heaviest. In 1870 there were only 115 Danish immigrants in the Dakota Territory. At the end of the century, there were approximately 5,000 and by 1920, there were 6,000. The total of Danish in the United States was 15,000 in 1920. Danish immigration to the Dakotas was either directly from Denmark or through other states, especially Wisconsin, Minnesota and Iowa.

Peter Aggegaard was born in Tyholm, Denmark in 1844. He emigrated to America in 1872 when he went to work in the lumber camps in Wisconsin. He only stayed in Wisconsin for one year at which time he moved to South Dakota where he owned 16,000 acres of prime agricultural land. The trend of Danish immigrants was to purchase large quantities of land and receive the serio-comical title of "king" given by other immigrants. Only men of real ability and force of character were called "kings." Aggegaard was given the title of "King of the Viborg settlement."

Much like other immigrants, Peter assisted other Danes in their migration to the United States. He would send money back to Denmark to specific people to pay for their passage to the United States. At the time of their arrival to South Dakota, the immigrants would work off their passage on Peter's extensive farm. He housed them in the attic of his large home.

The Peter Aggegaard Manor is a reflection of the adaptation of different architectural styles popular at the time of its construction. The most dominant style of architecture on the Aggegaard Manor is Colonial Revival. The Manor has a decorative pediment, symmetrically balanced windows and decorative corner boards. Elements from the Classical Revival style include boxed eaves with an overhang, a wide frieze beneath the cornice and dentils.

National Park Service

National Register of Historic Places Continuation Sheet

Section number 8, 9, 10 Page 4

Colonial Revival was the dominant architectural style for domestic building throughout the county during the first half of the 20th century. As is common throughout architecturally designed buildings, features of other styles were commonly adapted to fit a particular house. Details from two or more styles are freely combined in many examples so that a pure copy of the Colonial Revival style is far less common than the eclectic mixtures. The Aggergaard Manor is an example of the mixture of styles found in a rural setting.

The Aggergaard Manor is eligible as an excellent example of Colonial Revival architecture. It is the largest, most intact example of this style in the community of Irene. A Manor house of this type is not commonly found in Irene or in Yankton County.
