**Continuation Sheet** 

Item Number(s)

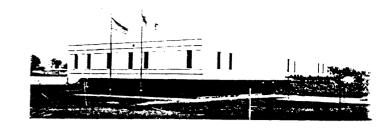

It is known from the <u>History of Hamilton County</u>, by S.J. Clarke, that William T. Oakland built this barn in the early 1900s as a combination hog and sale barn. The barn was designed for pig farrowing on the ground level with a sale ring on the upper level. To accommodate sales, the upper level was well lit by a row of sixteen windows located just below the break in the two-pitch gambrel roof. The windows on the ground level, characteristic of barns designed for hogs, were likely built for reasons of sanitation.

The supplier of the clay tile is unknown, as is the name of the builder(s). The use of structural clay tile was one of the later improvements in the history of round barns, believed to have been introduced around 1910 by the lowa Agricultural Experiment Station.

RE: William Oakland Round Barn, Blairsburg Township, Hamilton County

Dear Mr. Soike;

We are pleased that the William Oakland Round Barn is being considered by the State National Register Nominations Committee for nomination to the National Register of Historic Places. We diligently support preservation of historic sites, and urge with appreciation your consideration of the William Oakland Round Barn.

Sincerely, Some Sincerely,

The Hamilton County Board of Supervisors by Lana D. Hinderks, Hamilton County

Auditor/Commissioner of Elections
