NATIONAL REGISTER OF HISTORIC PLACES REGISTRATION FORM

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in *How to Complete the National Register of Historic Places Registration Form* (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

historic name Bridge No. 5151
other names/site number N/A

2. Location

street & number Mn. Hwy. 19 over Redwood River
not for publication N/A
city or town Marshall vicinity N/A
state Minnesota code MN county Lyon code 083
zip code 56258

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act of 1986, as amended, I hereby certify that this X nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property X meets does not meet the National Register Criteria. I recommend that this property be considered significant nationally statewide X locally. (See continuation sheet for additional comments.)

Ian R. Stewart Signature of certifying official Date 4/27/98
Ian R. Stewart, Deputy State Historic Preservation Officer
State or Federal agency and bureau Minnesota Historical Society

In my opinion, the property meets does not meet the National Register criteria. (See continuation sheet for additional comments.)

other (Superstructure) CONCRETE

Narrative Description (Describe the historic and current condition of the property on one or more continuation sheets.)

8. Statement of Significance

Applicable National Register Criteria (Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield information important in prehistory or history.

Criteria Considerations (Mark "X" in all the boxes that apply.)

- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or a grave.
- D a cemetery.
- E a reconstructed building, object, or structure.
- F a commemorative property.
- G less than 50 years of age or achieved significance within the past 50 years.

Areas of Significance (Enter categories from instructions)

ENGINEERING

Period of Significance 1931

Significant Dates 1931

Significant Person (Complete if Criterion B is marked above)

Cultural Affiliation _____

Architect/Builder Contractor/Builder: Guaranty Construction Company
Designer: Minnesota Highway Department

Narrative Statement of Significance (Explain the significance of the property on one or more continuation sheets.)

9. Major Bibliographical References

(Cite the books, articles, and other sources used in preparing this form on one or more continuation sheets.)

Previous documentation on file (NPS)

___ preliminary determination of individual listing (36 CFR 67) has been requested.

___ previously listed in the National Register

___ previously determined eligible by the National Register

Paperwork Reduction Act Statement: This information is being collected for applications to the National Register of Historic Places to nominate properties for listing or determine eligibility for listing, to list properties, and to amend existing listings. Response to this request is required to obtain a benefit in accordance with the National Historic Preservation Act, as amended (16 U.S.C. 470 et seq.). Estimated Burden Statement: Public reporting burden for this form is estimated to average 18.1 hours per response including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate or any aspect of this form to the Chief, Administrative Services Division, National Park Service, P.O. Box 37127, Washington, DC 20013-7127; and the Office of Management and Budget, Paperwork Reductions Project (1024-0018), Washington, DC 20503.

Description

Bridge No. 5151 carries Minnesota Trunk Highway 19 (formerly Trunk Highway 14) over the Redwood River in a residential district on the western outskirts of Marshall. Aligned on an east-west axis, the bridge consists of two, 31-foot, deck, concrete-girder spans on a concrete substructure. Eight lines of girders support the concrete deck, which accommodates a 40-foot, bituminous-surfaced roadway and two concrete sidewalks bordered by ornamental, open-balustrade, metal railings with concrete posts. Each railing supports two metal light standards detailed in the Classical Revival Style with consoles, fluting, and acanthus leaves. Metal plates on the northeast and southwest endposts bear the following inscription: "Minnesota Highway Department Bridge No. 5151 1931." Plans for Bridge No. 5151, dated 1931, are on file with the Minnesota Department of Transportation. These drawings indicate that the bridge still embodies its original design.

Summary of Significance

In 1930, the Minnesota Highway Department turned its attention to improving State Trunk Highway 14 (later renumbered Trunk Highway 19) in southwest Minnesota. Although the route was designated in 1921 as part of the state's original trunk highway system, the section in Lyon County had not yet been paved, nor had a permanent location for the highway been selected in the city of Marshall, the county seat. In January 1931, the highway department offered the city two possible alignments: one skirting the city on the north, the other bisecting the city near the business district. Although both the city council and the chamber of commerce favored the downtown route, there were misgivings because the proposed alignment cut through the city's main park on the bank of the Redwood River. In a series of public meetings, the highway department assuaged these concerns by demonstrating that the highway would claim relatively few trees in the park and that the new river crossing, to be designated as Bridge No. 5083, would be a suitably ornamental structure. Civic leaders were so impressed with the park bridge's design that they persuaded the highway department to apply it to a second Redwood River crossing, designated as Bridge No. 5151, that was to be built on Trunk Highway 19 on the western outskirts of the city. Because of its more remote location, Bridge No. 5151 had originally been planned as a simple utilitarian structure.

In designing Bridge No. 5083 and Bridge No. 5151, the highway department adapted a basic plan it had developed in the late 1920s for urban trunk highway bridges, whether steel or concrete. In the case of the two Marshall bridges, the design was applied to a two-span, concrete, deck-girder superstructure. The bridges were built under separate contracts, both secured from the state on a low-bid basis by Guaranty Construction Company of Minneapolis. Bridge No. 5083 was completed at a cost of \$23,277 in October 1931; Bridge No. 5151, slightly more expensive at \$26,496, opened to traffic the following December. With the

completion of the second project, the city's newspaper announced that "there are now two beautiful bridges on Highway 14 in Marshall, one at each end of the highway's route through the city."

Although the state highway department applied its ornamental urban bridge design to numerous trunk highway crossings before World War II, it is now rare to find good surviving examples of the type. In the post-war decades, road-widening projects eliminated sidewalks and railings, obsolescence (and vandalism) claimed lighting fixtures, and bridge-replacement projects did away with entire crossings. Bridge No. 5083 and Bridge No. 5151 in Marshall are among the few surviving, intact examples of the design.

Bridge No. 5151 is eligible for the National Register for its architectural design under Criterion C, within the historical context of "Reinforced-Concrete Highway Bridges in Minnesota, 1900-1945." The Multiple Property Documentation Form associated with this context states, in Registration Criterion 5, that a concrete highway bridge may be eligible under Criterion C if it displays notable aesthetics. Bridge No. 5151 satisfies this criterion.

Verbal Boundary Description

The general area of the nominated property is a rectangle 55.7 feet wide, whose long center axis parallels the centerline of the bridge. The property is bounded at each end by the outer edges of the abutments.

Boundary Justification

Based on measurements provided by the Minnesota Department of Transportation, the boundaries enclose the entire historic resource.
