Architectural statement: continued

tower is flanked by two front porches, which provide access from either Park or West Avenue.

The initial impact of this design results from the combination of component shapes; however, the building is also nicely detailed with turned posts and carved railings on the porches, and shingle accents on the tower ends.

Legal Description:

Pt Lots 7 & 8 Blk 5 Cutlers Add Pt SE 1/4 and NE 1/4 Sec 3 T6N R19E; Beg SW cor Lot 7; E on S li lots 20'; S para W li Lt 7 6' W 65' to W li Lt 7; S 7 4' to beg.

Architectural Significance:

An excellent rendition of Waukesha's early Queen Anne, this frame house is a well preserved, architecturally significant example of a period of construction. The angular forms exhibited in this house design were characteristic of early Queen Anne designs in Waukesha, but were rarely developed to this extent. The Smith House is distinctive, in Waukesha, because it combines a multiplicity of shapes with a variety of materials and ornament to create an agitated but cohesive design. See 442 W. College Avenue (WK 37/28)

The interior of the Smith house has been converted to apartments, and is not considered significant.
