National Register of Historic Places
Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in *How to Complete the National Register of Historic Places Registration Form* (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

National Register of Historic Places Continuation Sheet

Section number 7 Page 1

SUMMARY

The Hale Creek Bridge is located on County Road 271 at the crossing of Hale Creek. It is located approximately three miles northeast of the village of Red Wing. Comprised of one Pratt pony-truss span measuring 30 feet long, this bridge has a total length of 62 feet.

ELABORATION

The bridge is accessed from both the east and west. The Pratt truss was first developed by Thomas and Caleb Pratt in 1844, and contains diagonals in tension and verticals in compression.

The Hale Creek Bridge consists of a single Pratt pony-truss span measuring 30 feet, with a total structure length of 62 feet. The travel surface and overall width of the bridge is 18 feet. The deck surface is gravel over the steel truss. The abutments are concrete. Resting on top of the decking, a pair of side-by-side Pratt trusses run the entire length of the bridge on the north and south sides.

INTEGRITY

No structural alterations have been made to the bridge to compromise its integrity. Its location remains rural, and its setting remains pristine. The bridge still illustrates its original design and materials. In addition, the bridge is still in use for vehicular travel.

8. Statement of Significance**Applicable National Register Criteria**

(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing.)

- ☒ **A** Property is associated with events that have made a significant contribution to the broad patterns of our history.
- ☐ **B** Property is associated with the lives of persons significant in our past.
- ☒ **C** Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- ☐ **D** Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations

(Mark "x" in all the boxes that apply.)

Property is:

- ☐ **A** owned by a religious institution or used for religious purposes.
- ☐ **B** removed from its original location.
- ☐ **C** birthplace or grave of a historical figure of outstanding importance.
- ☐ **D** a cemetery.
- ☐ **E** a reconstructed building, object, or structure.
- ☐ **F** a commemorative property
- ☐ **G** less than 50 years of age or achieved significance within the past 50 years.

National Register of Historic Places Continuation Sheet

Section number 8 Page 1

SUMMARY

Constructed in 1919, the Hale Creek Bridge is being nominated to the National Register of Historic Places with **local significance** under **Criterion C** as the best example of a Pratt pony-truss in the Red Wing vicinity. The bridge is also being nominated under **Criterion A** for its associations with the development of vehicular transportation in Sevier County. This nomination is being submitted under the multiple property listing "Historic Bridges of Arkansas" and under associated historic context "Early Transportation Era."

ELABORATION

Although it is not known for sure, it is believed that settlement in Sevier County began in approximately 1810 probably in the vicinity of the Rolling Fork and Cassatot River valleys. Sevier County was officially created on October 17, 1828, by an act of the Arkansas Territorial Legislature and the county seat was established at Paraclifta just five days later on October 22.¹ By 1839, one road existed in Sevier County, which entered the county at Ultima Thule on the present Arkansas/Oklahoma border, proceeded southeast through Paraclifta and Pine Woods, before exiting the county just east of the Saline River.²

Since Paraclifta was the county seat of Sevier County initially, as settlement in the area increased throughout the nineteenth century, additional roads were constructed, and many of them passed through Paraclifta. By 1854, in addition to the road that connected Paraclifta with Ultima Thule to the northwest and Pine Woods to the southeast, roads connecting Paraclifta with Farmington to the northeast, Lion's Beard to the northwest, and Rocky Comfort to the southwest (in what would become Little River County in 1867) had also been constructed.³

Virtually nothing is known about the history of Red Wing. It apparently was not named in 1936, and also never had a post office.⁴ It appears to have been just a name for the crossroads, and still remains a crossroads today.

By the early twentieth century, providing good quality roads became a fairly high priority in Sevier County. Judge A. L. Tribble stated in one of his annual reports that:

¹ *Biographical and Historical Memoirs of Southern Arkansas*. Chicago: The Goodspeed Publishing Co., 1890, pp. 212, 214.

² David H. Burr. *Map of Mississippi, Louisiana & Arkansas exhibiting the post offices, post roads, canals, rail roads, &c.* Map. London: J. Arrowsmith, 1839.

³ *Colton's railroad & township map of Arkansas*. Map. New York, D. F. Shall, 1854.

⁴ Arkansas State Highway Commission. *General Highway and Transportation Map, Sevier County, Arkansas*. 1936, and Russell Pierce Baker. *From Memdag to Norsk: A Historical Directory of Arkansas Post Offices, 1832-1971*. Hot Springs, AR: Arkansas Genealogical Society, 1988.

National Register of Historic Places Continuation Sheet

Section number 8 Page 2

It is evident to me that we ought to accomplish more for good roads in the county than we are doing. Road ought to be built and crowned with some sort of material that will resist traffic and weather. I believe our roads should be built by contract. ... I do not blame the majority of the road overseers (For failing to build good roads). ... They have little funds.⁵

It would not be long until road construction began in earnest in the county.

Records with the Arkansas State Highway and Transportation Department indicate that the Hale Creek Bridge was built in 1919, prior to the designation of the road as U.S. 70. It is unknown who built the bridge, but the length of the stream crossing, approximately 60 feet, was ideal for a Pratt pony-truss. By 1936, the current County Road 271 was designated as the route of U.S. 70, the major east-west road across central Arkansas from West Memphis on Arkansas's eastern border to Ultima Thule west of DeQueen on the western border. As a result, the Hale Creek Bridge was a heavily traveled bridge shortly after it opened.

The setting of U.S. 70 in the Hale Creek Bridge vicinity was described in *The WPA Guide to 1930s Arkansas* by saying:

West of Dierks the hills fade into the bottoms of the Saline and Cossatot Rivers. The woods thicken and become gloomy; pines grow taller among great, straight hickories and bulky white oaks, and such near-river vegetation as vines and creepers appear in abundance.⁶

Today, the setting of the bridge remains wooded with an occasional open field.

According to the *General Highway and Transportation Map* for Sevier County of the time, the road was a metal-surfaced road. (In this case, metal refers to a nineteenth-century British term for broken stone or cinders used in making or repairing roads.) The route remained in service as U.S. 70 until the current alignment from the U.S. 70 / U.S. 71 intersection to the Howard County line was built in 1952.⁷

⁶ Elliott West. *The WPA Guide to 1930s Arkansas*. Lawrence, KS: University Press of Kansas, 1987 reprint of 1941 publication p. 236.

⁷ Robert Scoggin of the Arkansas Highway and Transportation Department. Telephone conversation with the author. 1 December 2003.

United States Department of the Interior
National Park Service

National Register of Historic Places Continuation Sheet

Section number 8 Page 3

After the realignment of U.S. 70 in 1952, County Road 271 quickly reverted to a little traveled county road. Today, it remains a gravel county road and, in fact, dead ends approximately one-half mile southwest of the bridge. However, the Hale Creek Bridge remains as a reminder of the importance of this route in the early twentieth-century, and as a good example of a Pratt pony-truss bridge.

STATEMENT OF SIGNIFICANCE

Constructed in 1919, the Hale Creek Bridge is being nominated to the National Register of Historic Places with **local significance** under **Criterion C** as the best example of a Pratt pony-truss in the Red Wing vicinity. The bridge is also being nominated under **Criterion A** for its associations with the development of vehicular transportation in Sevier County. This nomination is being submitted under the multiple property listing "Historic Bridges of Arkansas" and under associated historic context "Early Transportation Era."
