First Baptist Church 813 Market St. (W corner of Market & 9th Sts.) 80-72

Sited on a corner lot in the central business district, this is a 2 story, 3 by 6 bay gable roofed church with a central steeple on the facade (SE) and several additions to the rear (NW). Its gable roof is trimmed by an arched corbel table, corner turrets, and the polygonal steeple rising above an octagonal drum with arched ornament and large wooden corbels. The 2nd story windows, t/s, are round arched with hood molds; on the facade (SE), they contain round arched tracery. The 1st story windows are straight-topped on the side elevations. Three doorways open into the front (SE): a central one, framed by a large transom, tympanum, and compound arches, is flanked by smaller doorways with arched tympanums and hood molds. Rear additions include a large cement block section on the W which runs half the length of the nave and connects to the Oeldorf Building to the S; a 2nd wing at the N corner has a flat roof, corbeled cornice, tall arched windows on the NE side, and an arcaded porch across the SE.

irst Smitet Clurch - 207 24 13 Market St. (W corner of Market & 9th Sts.) 0-72

Sited on a comper lot in the central business district, this is a 2 story, and 6 bay gable rooted charch with a central steeple on the facade (SE) and esweral additions to the rear (NW). Its sable roof is trimmed by un prehed worbel table, corner turrets, and the polynomal steeple rising above so actagonal drum with arched ornament and large wooden durbals. The 2nd at act windows, t/s, are round arched with head wolds: on the incade (SE), the control arched tracery. The lat story windows are straight-topped on the side elements on the copy of the side elements.

ear additions include long to the nave at the N corner has M side, and an
