Q

10th & Avery Streets 76-169

Sited on a corner lot in an area of more vernacular wood frame houses, this Eastlake/Carpenter Gothic design features an outstanding display of ornament. Its roofline is a complex composition of hips and gabled wall dormers, pierced by 2 brick chimneys; the eaves flare to oversized sunburst pattern brackets in a frieze of diagonal boarding; the gable ends are marked by elaborate bargeboards featuring sunburst and carved ornament, curvilinear sawnwork, and pendants. The overhanging corners of the S & E projecting 3-sided wings feature similarly ornamented spandrels with pendants. The windows are d/s; some are replacement. Entrance is through a single door at the NE corner; the porch sheltering it has wrought iron supports.

10th & Avery Streets. 76-169

Situd on a corner lot in an area of more vernacular vood frame hones; this hastlake/Carpenter vothic design features an outstanding display of organize. Has routline is a complex composition of hips and gabled wall homers, pierced by 2 brick chismens; the caves flare to oversized subburst acts no brackets in a frieze of dispunct boarding; the gable ends are marked by elaborate a frieze of dispunct seaturing subburst and carved organized, curvillness no remote, and pendants. The overhanging corners of the S. & S. projecting Jesided wings leature similarly ornamented spandrels with pendants. The windows are d/s; some are replacement. Entrance is through a single door at the NE corner; the porch sheltering it has wrought iron supports.
