The Ryan complex Jepp and their do the Lost Horse M came to this vic	escendants). Th ine, the most pr inity in the 189	by the Ryan family e Ryans were the la ofitable one in the Os and during that the now standing as	ater developers o e area. The Ryar decade, accord-

In the early 1890s, Lang and his Lost Horse Mine partners had a twostamp mill at the spring. In 1896 the Ryans acquired the mine and established a 10-stamp mill at the mine, piping the water from Lost Horse Spring to the mine. In 1905 a well was dug at the spring, thus changing the name of it to Lost Horse Well.

The complex today continues to exhibit a way of life in the desert and is associated significantly with the early history and successful mining endeavors of the area.
