PHOTO #5 -- Northwest

NB: This long distance shot of the S. Peters facade
is intended to show the stature of the Federal

Fibre Mills Bldg. within the warehouse district.
Because of the distance involved, it was impossible
to key it to the sketch map.

Looking in a northwesterly direction

This view is looking from the rooftop of the Federal Fibre Mills Bldg. in a northwesterly direction. It shows the bulk of the warehouse district in the foreground and the towers of the CBD in the distance. The view is intended to show the height and scale of the Federal Fibre Mills Bldg. as compared to the rest of the warehouse district. Because of the potential for confusion, this picture is not keyed to the sketch map.
