DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

The Park consists of two parcels, the original Park, bounded by Elm, Russell, Highland and Park, deeded to the City by Levi Lincoln and John Hammond in 1854, and the 60 acre 1888 addition of the area called Newton Hill, from which was cut 20 acres for the Dougherty High School and about 8 acres for street widening. It was purchased in 1854, developed in 1874, and enlarged in 1888.

STATEMENT OF SIGNIFICANCE

The claim that Elm Park is the first public park in America naturally turns on definitions of first, public (acquired and administered by a municipality), and park (exclusively recreational). Though this claim is made by a plaque in the Park, on the basis of land acquisition made and completed in 1854, Central Park in New York counters with a land acquisition begun in 1853, though not completed until 1856, and other claims are made elsewhere. But the historic importance of Elm Park is not only an arguable claim to national priority and a positive one to state priority but its local importance as a landmark in park development. Edward Winslow Lincoln, Commissioner of Shade Trees, 1870-1885, of Parks, 1885 to his death in 1895, made Elm Park a model, with ponds, walks, mixed use of native and foreign trees and shrubs. When Newton Hill was added to Elm Park, it, too, became a model park, its tree-covered drumlin contrasting with the original low-lying section. Out of this original purchase of 28 acres grew a park system of over 1000 acres, in which the citizens of Worcester take great pride. The records of the Park Commission speak of Elm Park, which Edward Winslow Lincoln "thought and wrought" and direct that it shall be kept as he originally planned it. Lincoln's careful planning of the 1870's was a model and an inspiration later generations have followed.

Worcester Telegram - July 15, 1970

Telegram Photo by RICHARD F. OWENS

The view from the Russell Street side of Elm Park.

U.S. Historical Site Listing Gives Protection to Elm Park

Worcester's Elm Park, said to be the first land set aside for a public park in the United States, was placed on the national Register of Historical Places July 1, officials of the National Park Service in Washington said yesterday.

This listing will protect the area from highway and urban renewal project, or any projects financed by federal funds or licensed by the government in Washington, Park Service officials said.

The city's acquisition of Elm Park in 1854 "was the first pur-

chase of land for a public park in the United States," according to a plaque located near the Russell Street entrance. Claims that the park was actually the first public park in the country have been challenged by champions of Central Park in New York and the Boston Common.

The National Geographic Magazine has ranked Boston Common the oldest, saying it was set aside for public pasture in 1634. According to the American Antiquarian Society, Central Park wasn't established until 1858.

After the Elm Park area was decided to Worcester in 1854, the parks was designed and developed by Edward Winslow Lincoln. Worcester's commissioner of shade trees, in 1874, according to information supplied by Massachusetts when it nominated the park for federal protection earlier this year.

Expanded in 1888

The park was expanded with the inclusion of 60 acres of Newton Hill land in 1888. Doherty High School was built on Newton Hill in recent years, opening in 1966.

1. Town Worcester
 Name of area (if any) Elm Park
 3. General date or period 1854, 1888
 4. Is area uniform (explain):
 in style? n/a
 in condition? yes
 in type of ownership? yes
 in use? yes
