DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Ezra Abbott House, located at 345 East Broadway in Owatonna, is a twostory residence constructed of Yellow brick. The residence is a representative of the Greek Revival style of architecture. Characteristic features are; a full pedimented front porch, broken pedimented eaves in the gables, stone lintels, and twin chimneys (the east chimney has been removed).

Exterior alteration has been minimal. Windows were originally fitted with shutters, which have been replaced with wood storm sash. A four-window bay was added to the west facade. Originally a wood frame kitchen lean-to extended to the east. This was replaced in 1926 by a 16'x16' grey brick veneer addition to the rear of the house, with a kitchen on the first floor and enclosed sunporch. on the second. The original site contained a two-story carriage barn, which was razed when the lot was divided in 1915.

The original interior was divided into three rooms on the first floor. One partition wall was completely removed to extend the living room the length of the residence. In 1926 a partition running the width of the residence was opened into a wide arch when the first floor bedroom was converted to a dining room. An open stairway leads to two bedrooms and a bath (converted from a bedroom) on the second floor.

The residence is in an extremely good state of preservation.

STATEMENT OF SIGNIFICANCE

The Ezra Abbott House is locally significant due to its association with one of Owatonna's earliest and most prominent settlers.

This house was built by Abijab Odell for Ezra Abbott who arrived in Owatonna from New Hampshire in the spring of 1855, one year after the town was first settled. Although the exact date of construction is unknown, it first appeared on Steele County's tax rolls in 1860. The Abbott House is unique as one of the first brick dwellings in Owatonna. Bricks used in the construction of the house were brought overland from Faribault. It is one of less than a half dozen remaining solid brick residences built before the turn of the century in a city not noted for brick dwellings.

Ezra Abbott took a prominent role in the early history of the town and county. He and his brother surveyed the townsite and became part owners of the platted area. In 1855 Abbott built Owatonna's first steam sawmill which furnished most of the lumber for the new town. He was elected Steele County's first superintendent of schools in 1856, a post he held until 1862. Abbott was one of a group of leading settlers (among whom were Franklin Steele, Isaac Atwater, Henry H. Sibley, and Alexander Faribault) who attended the 1856 session of the Territorial Legislature, and succeeded in getting a bill introduced which incorporated the Minneapolis and Cedar Valley Railroad Company. Abbott was responsible for surveying the route and for locating the transit at Owatonna.
