PINEHURST NO. 2

I sincerely believe this course to be the finest test of championship golf I have ever designed. It is otherwise the best of the championship course to present a series of technical problems and problems that will test every type of ability. The player of championship ability should be able to play this hole. I should call the long and as a rule the short holes are made to challenge the ability to play the hole. It is the supreme test of a great player's precision, control, and finally, extended putting.
