DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

Greek Revival style building resembles early New England churches, with no steeple or bell, square double front door, and arched windows. Front has pediment supported by huge Tuscan columns of moulded brick, with bases formed by encircling flanges of lighter-hued handmade brick with bell-shaped cross section. Central front entrance has consoles and is flanked by smaller paneled doors. Other features include a plain entablature, brick pilasters, string-courses and keystones.

Interior of church has balcony around three sides with balustrade supported by fluted columns with a full entablature. Central aisle leads to communion table which is in front of a semicircular pulpit platform and a choir loft. The latter exhibits beautiful paneling, and full entablature supported by fluted pilasters. Above the baptistry there is an exquisite lattice fan. Architrave around windows, choir loft opening, and doors. Unique is the acanthus leaf "console banister" of the pulpit platform steps.

Erected in 1856, church is second meeting house built for congregation. Original frame church remained standing until 1865 burning of Columbia; site now occupied by modern Sunday School building. Present church was extended in length in 1941 and in width in 1949 to seating capacity of 1550.

Site of first meeting of South Carolina Secession Convention, December 17, 1860. Used because General Assembly was in session and no room available at State House. Convention was moved to Charleston the next day but before it adjourned it unanimously adopted a resolution that "it is the opinion of this Convention that the State of South Carolina should forthwith secede from the Federal Union, known as the United States of America." The convention was moved ostensibly because of a smallpox epidemic in Columbia; moderates felt, however, that the epidemic was an extremist excuse to get the convention to Charleston, hotbed of Carolina secessionists.

Church was organized in 1807; its first building erected in 1811. First pastor was Rev. Jonathan Maxcy, also first president of South Carolina College. Present church built 1857. According to local legend it was spared destruction by Sherman's soldiers in 1865 because its sexton, having removed its signs, directed them to the Washington Street Methodist Church, which they burned instead.
