National Register of Historic Places
Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in *How to Complete the National Register of Historic Places Registration Form* (National Register Bulletin 16A). Complete each item by marking "x" in the appropriate box or by entering the information requested. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

historic name Rock Methodist Episcopal Church

other names Christ Rock United Methodist Church; D-585

2. Location

street & number 2403 Maryland Route 16 not for publication

city or town Cambridge x vicinity

state Maryland code MD county Dorchester code 019 zip code 21613

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act of 1966, as amended, I hereby certify that this nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property meets does not meet the National Register criteria. I recommend that this property be considered significant nationally statewide locally. (See continuation sheet for additional comments).

[Signature] Date 4-17-14

State or Federal agency and bureau _____

In my opinion, the property meets does not meet the National Register criteria. (See continuation sheet for additional comments).

Signature of certifying official/Title _____ Date _____

State or Federal agency and bureau _____

4. National Park Service Certification

- I hereby, certify that this property is:
 - entered in the National Register.
 - See continuation sheet.
 - determined eligible for the National Register.
 - See continuation sheet.
 - Determined not eligible for the National Register.
 - removed from the National Register.
 - other (explain): _____

Narrative Description

(Describe the historic and current condition of the property on one or more continuation sheets)

8. Statement of Significance

Applicable National Register Criteria

(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- A** Property is associated with events that have made a significant contribution to the broad pattern of our history.
- B** Property associated with the lives of persons significant in our past.
- C** Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D** Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations

(Mark "x" in all the boxes that apply)

Property is:

- A** owned by a religious institution or used for religious purposes.
- B** removed from its original location.
- C** a birthplace or grave.
- D** a cemetery.
- E** a reconstructed building, object, or structure.
- F** a commemorative property.
- G** less than 50 years of age or achieved significance within the past 50 years.

Narrative Statement of Significance

(Explain the significance of the property on one or more continuation sheets)

Area of Significance

(Enter categories from instructions)

Architecture

Period of Significance

1875-1911

Significant Dates

1875, c. 1889, 1910-11

Significant Person

(Complete if Criterion B is marked above)

Cultural Affiliation

Architect/Builder

Unknown

Section 7 Page 1

Description Summary:

Rock Methodist Episcopal Church, currently known as Christ Rock United Methodist Church, stands on the south side of the intersection of Maryland Route 16 (Church Creek Road) and Rock Drive, west of Cambridge, Dorchester County, Maryland. The single-story, Gothic Revival frame church, erected in four periods of construction from 1875 to 1911, faces north with the gable roof oriented on a north/south axis. Supported on a brick pier foundation, the exterior is clad with plain weatherboard siding. Rising on the northeast corner of the church is a two-story, pyramidal-roofed entrance tower. The sides of the frame church are marked by a variety of pointed-arch window openings filled with colored glass. A cemetery surrounds the church on a wooded, 1-1/2 acre lot.

General Description:

Supported on a brick pier foundation, Rock Methodist Episcopal Church is a single-story, three-bay by four-bay frame structure standing at 2403 Maryland Route 16 (Church Creek Road) approximately one mile west of the city limits of Cambridge, Dorchester County, Maryland. Fixed in the northwest corner of the front pier is a marble datestone inscribed, "Rock M. E. Church, Built 1875, Rebuilt 1889-1911." The Gothic Revival frame church is covered with plain weatherboards, and a medium pitched gable roof is sheathed with asphalt shingles.

The original 1875 timber frame church structure, measuring approximately 25' by 30,' is crafted with a combination of hewn and sawn surfaces, visible in the crawl space and within the unfinished attic space above the sanctuary. The hewn sills of the original church, combined with a center summer beam, support floor joists that have a combination of hand hewn and reciprocal sawn sides. The joists measure 2 1/2" by 6." The underside of the flooring boards that span these joists are of random widths with some measuring 10" to 12." The first addition to the 1875 structure, executed around 1889, enlarged the original building to the rear by approximately 6 feet. There are distinct shifts in the sill size and finish as well as the sizes and finishes of the joists and flooring. The joist size is on average 1 3/4" by 8" and have circular saw kerf marks. The flooring that spans these joists is a regular 3" width tongue and groove material. The 1910-11 addition, which extended the church to the south with a Sunday School room on the first floor and a choir loft above, is built with a lighter weight sill, which is sawn on four sides with 1 3/4" by 8" joists supporting random width tongue-and-groove flooring.

The north (main) elevation is an asymmetrical façade with an entrance and bell tower on the northeast corner. On the first floor of the tower, replacement metal raised-panel double doors are fitted within a pointed arch door opening. Fixed above the double doors is a round

County and State

Section 7 Page 2

arched transom. The wall surface above the entrance is marked by a round window with quartered panes of colored glass. Capping the tower is a medium pitched pyramidal roof of asphalt shingles. Trimming the base of the tower is a modest Victorian bracketed cornice. Fixed between the tower and the gable roof of the sanctuary is a shed roofed cricket that diverts water away from collecting in the valley between the tower and main gable roof. The north elevation of the main block is defined by three pointed arch windows filled with colored glass. The larger center window, formerly the location of the main entrance in the 1875 church, is wider and slightly taller than the flanking lancet style windows. The top of the gable-front wall is finished with an extended eave, enclosed soffits, and returns at the lower corners.

The side elevations are defined by pointed arch lancet windows. The windows on the west side elevation are original to the late nineteenth century structure, while the windows on the east side are late twentieth century replacements. A seam in the cornice on each side indicates where the 1889 structure ends and the single-bay 1910-11 addition begins. Single flue brick stove stacks pierce the side walls and rise through small cross gables. On the east side there is a four-panel door as a side entrance that provides access to the Sunday School room, and a two-over-two sash window partially lights the choir loft above. A small square window lights one of the two bathrooms on the first floor.

The south (rear) wall of the 1889 structure was completely covered when the church was extended in 1910-11, and small pointed arch apse windows were reused on the south wall. A round colored glass window the upper gable end was probably also relocated from the back wall or apse of the 1889 structure.

The interior of the church retains a very large percentage of its late nineteenth century architectural fabric intact. The sanctuary is entered through a small vestibule in the tower that is trimmed with a mixture of late nineteenth century and early twentieth century replacement beaded tongue-and-groove wainscoting. Above the wainscoting, the original plaster has been replaced with wallboard. Fixed in the ceiling of the vestibule is a beaded board hatch that provides access to an unfinished tower interior. A pair of late nineteenth-century doors with a heavy ogee panel molding is framed by a bulls-eye block surround. These doors were cut down and reused from a former location. The outer, vertical edges of the doors were rounded so that they would swing on pivots. Evidence of the former hinge locations is clearly visible.

The sanctuary has a balcony at its north end. Two blocks of Victorian pews are divided by a center aisle. Trimming the perimeter of the sanctuary is vertical beaded board tongue-and-groove wainscoting with a plaster wall finish above. Fixed on each side wall is an interior brick stove stack serving Monogram oil-fired space heaters. The north end balcony is supported by square posts, and a turned baluster staircase rises to the upper level seating. A small tongue-

County and State

Section 7 Page 3

and-groove beaded board door provides access to the storage space underneath the first landing. The altar end of the sanctuary is defined by a semi-circular platform accented by a low, turned baluster railing. There are two tiers to the platform, and the original Victorian pulpit is backed by a decorative set of four beaded tongue-and-groove panels. The upper two panels have diagonally set tongue-and-groove boards. To each side of the pulpit platform are shallow four-panel doors leading to the Sunday School room. Fixed in the southwest corner of the Sunday School room is a narrow staircase leading to the choir loft. The choir loft has an open front marked by decorated posts and a low, turned baluster railing. The Sunday School room on the first floor is a low ceiling room with two mid twentieth century bathrooms located on its east side. Defining the south wall of the Sunday School room are the two pointed arch colored glass windows flanking a center door.

The cemetery is located to the south of the church in a grove of trees. There are several dozen marble markers, and many of the graves have above-ground concrete covers.

Summary Statement of Significance:

Rock Methodist Episcopal Church is significant under Criterion C for its architecture, as a representative example of church design endorsed by the Board of Church Extension of the Methodist Episcopal Church during the late nineteenth and early twentieth centuries. The period of significance, 1875-1911, spans the period during which the church achieved its historic and current form and appearance.

Rock Methodist Episcopal Church meets Criteria Consideration A (Religious Property) because its significance stems principally from its architecture. The building ceased to be used for religious services in the 1990s.

Resource History and Historic Context:

Built in three principal stages, the timber frame, Gothic Revival style structure was erected initially in 1875 with successive modifications in 1889 and 1910-11. All three dates are recorded on a marble datestone fixed in the northwest corner foundation pier. With a confirmed architectural history that begins in 1875, it is one of the oldest surviving post-Civil War African-American churches on the lower Eastern Shore. Waves of modifications, consistent with the over-riding principles and recommendations of the Methodist Episcopal denomination nationally, affected and influenced the space and style changes that transformed the original gable-front frame church building. The sanctuary of this church has experienced only a few alterations since its enlargement and reworking between 1889 and 1911. A balcony, reached by a quarter turn staircase, dominates the north end interior while a raised platform altar, altar furniture and choir loft above are principal features of the south end. The choir loft and Sunday School room below, along with the front corner tower, were part of the modifications to the church during the early twentieth century.

The enlargement and restyling of the church exterior and interior in 1889, as well as the further expansion of the building in 1910-11 with an asymmetrical entrance tower, and rear Sunday School room and choir loft, point to the prominent trends inherent in the Methodist denomination nationally. During the late nineteenth century, the Board of Church Extension of the Methodist Episcopal Church published catalogues of architectural plans for churches and parsonages which influenced greatly rural congregations across the Eastern Shore. While the architectural form and decoration of the tower and Gothic arched windows do not repeat exactly pattern-book designs, they easily evoke the intent to follow in the design recommendations espoused by the national leadership. The choir loft and Sunday School room addition speak to the growth and importance of these two congregational functions. The African-American congregations on the Eastern Shore are especially known for the key role that the choir and congregational singing had in their worship services. The property includes a cemetery dating to the period of use, beginning during the post-Civil War years. Rock Methodist Episcopal Church stands prominently on the south side of Maryland Route 16 at the intersection of several county roads across the highway from the Stanley Institute, a post-Civil War school building now used as a museum for the history of African-American education in Dorchester County, Maryland. The school and church are closely linked historically as they were established during the decade following the Civil War. Oral traditions within the church membership trace the early formation of a congregation in this community to 1867 when a small building was relocated from the village of Church Creek and jointly used as a school and a chapel.¹ Within five years, a building committee was established to erect a church separate from the school, and in August 1874 a half-

acre parcel of the Bellfield tract was transferred by Thomas J. and Francis S. Dail, residents of the Baltimore, to Samuel Harris, Jon Cornish, Elisha Jolly, Lawrence Cornish and Josiah Marine.² According to the marble datestone set in the foundation pier, the original section of this church was erected the following year. Also recorded on the datestone are two additional dates and the word, "Rebuilt, 1889 and 1911." Fabric analysis of the structural frame confirms that the 1875 church, a 25' by 30' timber frame structure, survives and is masked by a uniform interior and exterior finishes. The initial single story timber frame church had a center, gable-front entrance and most likely two sash windows on each side. The windows were most likely of multi-pane lights with clear glass. Potentially, the only surviving interior elements of the 1875 church are the turned baluster altar rail and paneled pulpit. The paneled sides of the pulpit are enriched with 1870s ogee panel moldings, and the balusters of the altar rail are executed with turnings typical of post-Civil War stair rail baluster profiles. It is clear the altar rail has been cut and modified several times in its history of use.

In 1889, the original gable-front frame church was enlarged approximately six feet to the south, and stylish Gothic arched, colored glass lancet windows were installed on each lateral wall; three to a side and one on each side of the center entrance. The entire exterior was resheathed with new weatherboards,³ and new brick piers were installed under the lengthened structure. The cornices were reworked with extended eaves and returns. On the inside of each lateral wall single flue chimney stacks were erected to accommodate stoves. The interior was extensively restyled with vertical beaded board wainscoting, new plaster above the wainscoting. A balcony was stretched across the north end. Centered in the south gable end was a three sided apse that featured small lancet windows on each side of a round arched window.

In 1910-11, the church was enlarged a second time with a Sunday School room and choir loft addition, which necessitated eliminating the three-sided apse that defined the south end. In an effort to repeat popular Gothic architectural traditions embraced by the national Methodist Episcopal Church, a two-story entrance tower was erected on the northeast corner. The construction of the entrance tower made the old center, gable-end entrance obsolete, and it was closed up and converted into a Gothic arched window. The seams in the exterior weatherboards and the shift inside of the type of wainscoting indicate the position of the former entrance.

In its original configuration, a board partition enclosed the balcony staircase, which was modified with the installation of a turned newel post, turned balusters, and a molded handrail during the 1910-11 period of construction. Similar turned work is found in the choir loft, also dating to the same time. The rear addition required the removal of the apse, and the colored glass windows were reused in the south wall of the extended structure. The altar area was

reworked with diagonal matched, tongue-and-groove beaded boards that infilled the section formerly occupied by the apse. The altar was raised at that time in a two tiered form. According to the church history, the 1910-11 addition was executed by contractor, R. B. Dixon of Easton.

The church remained the same size until the mid-twentieth century. During the ministry of Reverend Theasdar Murray (1956-1968) a single story concrete block church hall was erected by Alfred Foster and James Opher of Cambridge. It was also during this period that a layer of insulation was applied to the exterior and covered with gray asphalt shingles (since removed). A fire that emanated from the east stove chimney damaged a large section of the roof. Active use of the building as a church ceased during the late 1990s when problems surfaced with the renewal and improvement of the septic system.

In 2011 the Friends of Stanley Institute undertook a program of restoration to reuse the church as a public historic site and museum.

Dear Mr. Little:

In accordance with Presidential Executive Order 12372 and Code of Maryland Regulation 34.02.01.04-.06, the State Clearinghouse has coordinated the intergovernmental review of the referenced project. This letter constitutes the State process review and recommendation. This recommendation is valid for a period of three years from the date of this letter.

Review comments were requested from the Maryland Department(s) of Natural Resources, Transportation, Dorchester County, and the Maryland Department of Planning. As of this date, the Maryland Department(s) of Transportation, and Dorchester County have not submitted comments.

The Maryland Department(s) of Natural Resources and the Maryland Department of Planning found this project to be consistent with their plans, programs, and objectives.

The State Application Identifier Number must be placed on any correspondence pertaining to this project. The State Clearinghouse must be kept informed if the approving authority cannot accommodate the recommendation.

Please remember, you must comply with all applicable state and local laws and regulations. If you need assistance or have questions, contact the State Clearinghouse staff person noted above at 410-767-4490 or through e-mail at mbarnes@mdp.state.md.us. **Also please complete the attached form and return it to the State Clearinghouse as soon as the status of the project is known. Any substitutions of this form must include the State Application Identifier Number. This will ensure that our files are complete.**

RE: CHRIST ROCK UNITED METHODIST CHURCH
Dorchester County, Maryland

Dear Mr. Johnson:

The Christ Rock United Methodist Church will be considered by the Governor's Consulting Committee for nomination to the National Register of Historic Places on Tuesday, October 16, 2012. The National Register is the official list of historic properties recognized by the Federal Government as worthy of preservation for their significance in American history, architecture, archaeology, engineering, and culture. In Maryland, the nomination process is administered by the Maryland Historical Trust. Enclosed you will find a copy of the criteria under which properties are evaluated for listing. The meeting will be held at the Maryland State Archives, 350 Rowe Blvd, Annapolis, Maryland, beginning at 10:00 a.m. You are welcome to attend this meeting.

Listing in the National Register results in the following for historic properties.

1. Consideration in planning for Federal, federally or state funded, licensed and assisted projects. Federal and state legislation requires that Federal agencies allow the Advisory Council on Historic Preservation and state agencies, including the Maryland Historical Trust, opportunity to comment on all projects affecting historic properties listed in the National Register. For further information please refer to Section 36, Code of Federal Regulations, Part 800 and Annotated Code of Maryland, State Finance and Procurement Article, Section 5A-323 et seq. or call the Office of Preservation Services of the Maryland Historical Trust at (410) 514-7630.
2. Eligibility for Federal tax provisions. If a property is listed in the National Register, certain Federal tax provisions may apply. The Tax Reform Act of 1986 revises the historic preservation tax incentives authorized by Congress in the Tax Reform Act of 1976, the Revenue Act of 1978, the Tax Treatment Extension Act of 1980, the Economic Recovery Tax Act of 1981, and the Tax Reform Act of 1984, and as of January 1, 1987, provides for a 20 percent investment tax credit with a full adjustment to basis for rehabilitating historic commercial, industrial, and rental residential buildings. The former 15 percent and 20 percent Investment Tax Credits (ITCs) for rehabilitation of older

commercial buildings are combined into a single 10 percent ITC for commercial or industrial buildings built before 1936.

The Tax Treatment Extension Act of 1980 provides Federal tax deductions for charitable contributions for conservation purposes of partial interests in historically important land areas or structures. Whether these provisions are advantageous to a property owner is dependent upon the particular circumstances of the property and the owner. Because tax aspects outlined above are complex, individuals should consult legal counsel or the appropriate local Internal Revenue Service office for assistance in determining the tax consequences of the above provisions. For further information on certification requirements, please refer to 36 CFR 67 or the Office of Preservation Services of the Maryland Historical Trust at (410) 514-7630.

3. Eligibility for a Maryland income tax benefit for the rehabilitation of historic property. For further information on the Heritage Preservation Tax Credit, contact the Office of Preservation Services of the Maryland Historical Trust at (410) 514-7628.

4. Consideration of historic values in the decision to issue a surface coal mining permit where coal is located. In accord with the Surface Mining Control and Reclamation Act of 1977, there must be consideration of historic values in the decision to issue a surface coal mining permit where coal is located. For further information, please refer to 30 CFR 700 et seq.

5. Eligibility to apply for federal and state grants and state low interest loans for historic preservation projects. To determine the present status of such grants and loans, contact the Office of Preservation Services of the Maryland Historical Trust at (410) 514-7632.

Owners of private properties nominated to the National Register have an opportunity to concur in or object to listing in accord with the National Historic Preservation Act and 36 CFR 60. Any owner or partial owner of private property who chooses to object to listing may submit to the State Historic Preservation Officer a notarized statement certifying that the party is the sole or partial owner of the private property and objects to the listing. Each owner or partial owner of private property has one vote regardless of what portion of the property that party owns. If a majority of private property owners object, a property will not be listed; however, the State Historic Preservation Officer shall submit the nomination to the Keeper of the National Register of Historic Places for a determination of eligibility of the property for listing in the National Register. If the property is determined to be eligible for listing, although not formally listed, Federal agencies will be required to allow the Advisory Council on Historic Preservation and state agencies, including the Maryland Historical Trust, an opportunity to comment before the agency may fund, license, or assist a project which will affect the property. If you choose to object to the listing of your property, the notarized objection must be submitted to J. Rodney Little, State Historic Preservation Officer, ATTN: Peter Kurtze, Maryland Historical Trust, 100 Community Place, Crownsville, Maryland 21032-2023 by the date of the meeting given above.

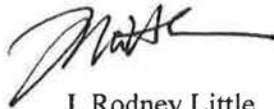

Listing in the National Register does NOT mean that the Federal Government or the State of Maryland wants to acquire the property, place restrictions on the property, or dictate the color or materials used on individual buildings. Local ordinances or laws establishing restrictive zoning, special design review committees, or review of exterior alterations are not a part of the National Register

Page 3

program. Listing also does NOT require the owner to preserve or maintain the property or seek approval of the Federal Government or the State of Maryland to alter the property. Unless the owner applies for and accepts special Federal or state tax, licensing, or funding benefits, the owner can do anything with his property he wishes so long as it is permitted by state or local law.

If you wish to comment on whether the property should be nominated to the National Register, please send your comments to J. Rodney Little, State Historic Preservation Officer, ATTN: Peter E. Kurtze, before the Governor's Consulting Committee considers the nomination. Copies of the nomination, regulations and information on the National Register and Federal and State tax provisions are available from the Trust. If you have questions about this nomination, please contact Peter E. Kurtze, Administrator of Evaluation and Registration, Maryland Historical Trust at (410) 514-7649.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Rodney Little", with a long horizontal flourish extending to the right.

RE: CHRIST ROCK UNITED METHODIST CHURCH
Dorchester County, Maryland

Dear Mr. Johnson:

The above referenced property was considered by the Governor's Consulting Committee for nomination to the National Register of Historic Places on October 16, 2012. The Committee recommends nomination of the property. The next step in the process involves final preparation of the application materials by the Trust for submission to the National Register office in Washington. You will be advised in writing of the decision of the National Register on the nomination.

Sincerely,

A handwritten signature in black ink, which appears to read 'Peter E. Kurtze'. The signature is written in a cursive style with some loops and flourishes.

National Register of Historic Places Evaluation/Return Sheet

Property Name: Christ Rock United Methodist Church
Dorchester County, MD

Reference Number: 13000968

Reason for Return: The nomination is being returned for a number of technical deficiencies.

Property Name: The building is being nominated under the name Christ Rock United Methodist Church, which is its current (and not historic name). The nomination notes that historically it was called the Rock Methodist Episcopal Church and this is the name under which it should be nominated. Please change the form (including all continuation sheets, maps, photographs, etc.) to reflect the building's historic name.

Criteria Consideration A: As a building owned and used by a religious group during the historic period of significance, the nomination form needs to demonstrate that the building meets National Register Criteria Consideration A (Religious Property). Please check Criteria Consideration A and provide an explanation of how the building meets the Criteria Consideration.

Cultural Affiliation: The category for Cultural Affiliation has been filled out in Section 8 of the form. Please note that National Register guidance provides that this category is used only if a property is nominated under National Register Criterion D. Please amend the form to delete this information.
