NAME: North Fork Guard Station #1142

LOCATION: Gifford Pinchot National Forest, Randle Ranger District;  
Congressional District 3, Vicinity of Randle, Washington (53); Lewis  
County (041)

ADDRESS: USDA Forest Service  
Gifford Pinchot National Forest  
500 West 12th Street  
Vancouver, WA 98660

CLASSIFICATION/CATEGORY: Building

DESCRIPTION:

Condition

Excellent       Unaltered       Original Site

North Fork Guard Station #1142: 1937; 16' x 25'; Rectangular, 1 story wood frame, poured concrete foundation, wood shingled high gable roof, offset gable on south elevation main entry, offset, recessed in south gable supported by one heavy squared-timber post, single heavy, short outward curving bracket, affixed, lateral gable on east gable end forms side entry. Single coursed rubble interior chimney straddles main ridgeline, center. Horizontal clapboard exterior, vertical boards corner notched, all gable ends. Functional vertical board shutters cover windows, single simple pine tree cut out, above center on each. Single large slender pine tree cut out, slightly above center, on east, west, and south gable ends; each cut from single board. No obvious alterations, structural or material, to exterior.

North Fork Guard Station, Garage #1551: 1938; 16 x 18; Rectangular, wood frame, two bag, poured concrete foundation, wood-shingled medium gable roof. Horizontal clapboard exterior, vertical boards, corner notched, on gable ends. Six-light sash windows. Single leaf vertical board door, two-leaf vertical board door, hinged opening on south gable end. Single large slender pine tree cut from two boards above center on each gable end. No obvious alteration.

**SIGNIFICANCE:**

The North Fork Guard Station typifies the construction projects undertaken by the Civilian Conservation Corps and signifies the aid to the local community provided by the emergency work-relief program through employment of youth and experienced craftsmen, purchase of building materials and camp supplies, and personal expenditures of enrollees. The property represents the Forest Service's presence in the locality, as intradistrict headquarters for field operation, and denotes, via the physical facilities required to carry out the agency's expanding responsibilities, the critical transition in the Service's development from custodial superintendence to extensive resource management. The North Fork Guard Station exemplifies the rustic architectural idiom developed by the Forest Service, Pacific Northwest Region, to impart Forest Service identity and to represent its purposes and ideals, and signifies the agency's particular interpretation of a singular expression of early twentieth century American architectural thought. Possessing superior qualities of design and execution, the Guard Station is an excellent example of an architectural location invested with special aesthetic and associative values by the agency that created it.

**GEOGRAPHICAL DATA:**

Acreage: Less than one

**UTM Reference:**

<u>Point</u>	<u>Zone</u>	<u>Easting</u>	<u>Northing</u>
