### DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Woodward Building is a two story, 30' x 90', brick commercial building which is distinguished by its classically inspired iron cornices and white pressed brick facade. The applied ornamentation includes a cavetto between the first and second stories which is supported by modillions at each end and a cornice with four modillions. Rusticated sandstone frames the plate glass windowed first story and the second story windows are framed by brick layed to give a corbelled affect.

Except for a window air conditioner the second story remains unaltered, although the first story has undergone various modifications including the addition of a sign and canopy. However, the alterations mainly involve a change in window treatment, which may be corrected at some future date.
