**NATIONAL REGISTER CRITERIA STATEMENT (if applicable)**

The Langmaid Building, 48-52 Highland Avenue, is a well-built example of apartment rowhouses, built in the late-19th century, at the height of Somerville's period of greatest growth and development. The property retains integrity of location, design, materials, workmanship, feeling, and association, and fulfills Criteria A and C of the National Register of Historic Places on the local level.

**ARCHITECTURAL SIGNIFICANCE** Describe important architectural features and evaluate in terms of other buildings within the community.

The Langmaid Building, 48-52 Highland Avenue is typical of the Second Empire influenced apartment row houses built in Somerville in the 1870s and 1880s. The use of panel brick with decorative insets is characteristic, as is the slate covered mansard roof. The three towers with polygonal roofs are of varying height. Stone lintels and sills, and segmental-arched window openings on the end facade, further ornament the building.

**HISTORICAL SIGNIFICANCE** Explain the role owners played in local or state history and how the building relates to the development of the community.

Samuel Langmaid and members of the Langmaid family developed several handsome brick rows in Somerville, of which 48-52 Highland Avenue is a fine example (as is Langmaid Terrace 359-365 Broadway, # 117). This building constructed ca. 1875-1883, was the first on this block on Highland Avenue. Subsequent apartment construction on Highland Avenue included the equally stylish Romanesque Revival Highland Building # 140. As Highland Avenue was a well-travelled route to Boston, residents of the Langmaid Building could easily commute into the city.
