

①

Jensen / Jensen House
Sandy, Salt Lake Co., UT

Handwritten text in a cursive script, likely a list or index. The text is arranged in two rows. The first row contains approximately six entries, and the second row contains approximately five entries. The entries appear to be names or titles, possibly of books or documents, with some entries having a vertical line to their left, suggesting a list format. The handwriting is somewhat faded and difficult to decipher precisely.
