ST. PAUL'S EPISCOPAL CHURCH,
Beloit, Wis., 1978. Photo by
Rick Elliott, Beloit. The view
is from the northeast, showing
at extreme left a two-story aux-
iliary brick building of the
1950's which is now connected
with the church by the 1967
addition, thus becoming a rear
wing. The latter structure is
not considered significant for
purposes of this nomination.
